which

should be with this package.

1.2 Copyright

This Demo version is Public Domain and can be copied and spread by any means as long as:-

1. No more than a small copying/postage fee is charged.
2. None of the files are changed in any way without the authors consent.
3. All of these files are included:-

Sneech	+ Icon	Main Game File.	(NEEDS AMOS.Library)

SneechDemo.Guide	+ Icon	This Guide.	

SneechFiles	<Dir>	And *ALL* of the files in it! No Icons.
Libs/AMOS.Library		The AMOS.Library
C/SmoothGuide	+ Icon	The Guide Reader (NEEDS AMOS.Library)
C/SmoothGuide.Guide	+ Icon	SmoothGuide Documents

The SmoothGuide program should be included although it can be left out as long as there's a guide reader included to read the guides.

As long as the above has been followed you can spread the demo in any form ie. Lha, Lzx, Dms or simply on a disk with anything else you like!

I would like so see every Public Domain Library holding this Demo!
 I would also be pleased to see it uploaded onto many BBS's
 I would also like to see it used on any Coverdisks!
 I would also like to win the lottery and bugger off to 'Bermuda'
 I would settle for a few more registers of this fine Game, so make my day!

Please get in touch with me if you are not sure about using this demo for any reason. You should also get in touch if you want a newer version of this demo as I will be updating the game for some time to come.

Please read the Future Updates section to find out what I'm working on....

The 'L' or Learner mode will allow you to play using some of the extra shop items like Constant Speed, Survive as 1, Self Reverse, Auto Turn, Shields etc. The problem with the learner mode is 25% off Rattng and No choice etc.

As well as these limitations there is also the fact that I update the game every week so if you do like the game you will miss out on the new items.

The Full version only costs £5 and for this you get the Full Registered version with all the new improvements I might have added as well as getting the chance to update it for free, as often as you like! If you write a nice letter telling me how much you like this game I'll allow you to choose another of my games for free! (Read 'Other Games' section of the Full Guide!)

It would help me if you told me which Amiga you own and a bit about HD, Memory etc. Also if you could tell me where you got hold of this demo and which demo Version you have got. It would also help if you quoted the name 'Sneech' as I've got a couple of Shareware games out now and some people don't tell me what game their after!

You can send a Cheque or P/O for £5 made out to :-

'Paul Burkey'
32 Cottage Close
Little Neston
South Wirral
L64 9RB

Or Email me at :- paulb@sneech.demon.co.uk

Overseas customers are welcome to send their own currency but you should follow these prices:-

£6.50 - £7.00 Europe. (Approx Currency so be honest)
£7.50 - £8.00 Outside Europe.

I have already had many happy customers from all over the world including:-

UK + Ireland, The Netherlands, Sweden, Norway, Portugal, Australia, Greece.

If you can send a £5 Note then do so as I can honestly be trusted and we'll both be better off!!! I'll pay the postage if you send a fiver!

[---- IRC!! -----]

If you can get in touch using Internet Relay Chat then do so. I'm on it quite often depending on how flush I am for cash (BIG Phone Bills?) so look out for me under the nickname of 'shoecake' send a message to me if your on like /msg shoecake Sneech! and I'll get back to you if I'm there! I could even send you the Registered Version via IRC so get in touch!!!
[-----]

If you like this game and you play it a lot, you are quite welcome to keep playing it and not pay for it (it is only a demo). If you do play it a lot but you don't want to pay or you think it's not worth paying then email me and give me a "I'm not paying until you add XXX feature." or something like that. I don't want to miss out on giving you a good reason to cough up some money??

If theres anyone who can't play this game because of the fact that it's a PAL screen only game then get in touch. I might be able to sort you out.

Thank You for now,

Paul Burkey
