1.5 install

```
              How To Install
              ==============
```

Copy the pre-seved games to a blank flopy (or Where ever you keep your games ↩
    saved.)

Then Load The Game, and load the position you want!

And Thats it!!! (easy EH??!!!)

HINT :- In some games I got into troble with the Law (so be careful!!)
