

Image 1.0

Image 1.0 lets you quickly retouch photographs and edit bitmap images for use in print productions such as brochures, manuals, and online learning tools.

Image offers a unique combination of features, speed, and ease of use for both professional and occasional users. Photographers can use Image to digitize and retouch photographs. Desktop publishers can use Image to provide screen shots and illustrations for publications, using retouching tools and sophisticated effects.

Microsoft Office Compatible

Image is a Microsoft Office 97 Compatible product, which means that many of its basic features (including toolbars, menus, and accelerator keys) are similar to those used by Microsoft Office. If you are already using Office or an Office 97 Compatible product, then you will see that many tasks can be completed in a similar manner in Image. These similarities will make it easier for you to use Office 97 Compatible products together.

Look for the Microsoft Office 97 Compatible logo when purchasing software. For more information about the Microsoft Office 97 Compatible program, and for a complete listing of Microsoft Office 97 Compatible products, please see the Office Compatible web site at <http://www.microsoft.com/office/compatible> or call Microsoft Customer Service at 1-800-426-9400. Customers outside the United States should contact their local Microsoft office.

Image 1.0 and the Office Compatible Features

Office Compatible features include:
