

**PICSAVER**-The Pegasus Screen Saver is available in single-user and OEM licensing versions.

**PICSAVER OEM versions** can be modified to include company information including logos, custom effects, and images.

This product was developed with the following Pegasus products:

**PICTools** line of software development kits--Pegasus offers production and development tools for better color imaging. PICTools offers software developers high speed, high quality solutions for image compression, image decompression, color mapping, color reduction and imaging zooming.

**PICPRESS** "the ultimate image compression utility"--A great tool for content developers looking for better quality compression. PICPRESS offers smaller standard JPEG and progressive JPEG files making us the "the Better JPEG People".

For information on all Pegasus products and solutions, please visit <http://www.jpg.com/> or contact Pegasus Imaging Corp. at (813) 875-7575 for additional details.
