

DISCLAIMER - AGREEMENT

Users of **Air and Exhaust Gas Properties** must accept this disclaimer of warranty: **Air and Exhaust Gas Properties** is supplied as is. The author disclaims all warranties, expressed or implied, including, without limitation, the warranties of merchantability and of fitness for any purpose. The author assumes no liability for damages, direct or consequential, which may result from the use of **Air and Exhaust Gas Properties**.

Air and Exhaust Gas Properties is a shareware program and is provided at no charge to the user for evaluation. Feel free to share it with your friends, but please do not give it away altered or as part of another system. The essence of "user-supported" software is to provide personal computer users with quality software without high prices, and yet to provide incentive for programmers to continue to develop new products. If you find this program useful and find that you are using **Air and Exhaust Gas Properties** and continue to use **Air and Exhaust Gas Properties** after a reasonable trial period, you must make a registration payment of \$90.00 US to **Taftan Data**. The \$90.00 US registration fee will license one copy for use on any one computer at any one time. You must treat this software just like a book. An example is that this software may be used by any number of people and may be freely moved from one computer location to another, so long as there is no possibility of it being used at one location while it's being used at another. Just as a book cannot be read by two different persons at the same time.

Commercial users of **Air and Exhaust Gas Properties** must register and pay for their copies of **Air and Exhaust Gas Properties** within 30 days of first use or their license is withdrawn. Site-License arrangements may be made by contacting **Taftan Data**.

You are encouraged to pass a copy of **Air and Exhaust Gas Properties** along to your friends for evaluation. Please encourage them to register their copy if they find that they can use it. All registered users will receive a copy of the latest version of the **Air and Exhaust Gas Properties** system.
