**The plant life in Arizona is as varied and interesting as its attractions listed above! See it in the spring, when the weather is gorgeous, and the landscape is equally gorgeous with**

**masses of color. Nature's palette of color includes blackberries, blue lupines, golden rabbitbush, greenleaf mistletoe, purple penstemon, red barberry, scarlet creeper, silver cholla, white prairie clover, yellow palo verde - and many more!**

**Arizona is thought of as a "desert state," but go north and you'll find some of the most beautiful blue spruce, ponderosa pines, fir trees and white aspens you'll see anywhere. People camp out in the forests in Northern Arizona and are put to sleep by Nature's lullaby of the wind blowing through the aspens; it's an experience they never forget.**

**The real, amazingly beautiful Arizona, is what you will find in this CD!**
