## EXIT, SILENT, ABOUT

(C) 1992,1993 SOFTWARE APPLICATIONS

#### **COPYFeatures**

#### One pass copy

Copy a disk in only one pass (there must be enough memory available (RAM or Hard Disk space)).

#### **Different formats**

Copy a disk to a different format.

e.g. 360KB --> 1.2MB, 360KB --> 1.44MB

You can also copy a disk with a higher format to a disk with lower format under the following condition :

The data on the source disk are smaller or equal then the available free space on the destination disk.

e.g. 1.44MB --> 720KB

#### Multitasking

Copy can be done in background.

### **Multiple copies**

Make multiple copies from a single disk.

#### Image copy

Store a complete diskimage on your hard disk. Load a diskimage to your floppy disk.

#### Options

Verify and Format Options can be choosen.

# FORMAT Features

# Supports 360KB, 720KB, 1.2MB, 1.44MB
