**Worlds Chat** is a good first stop on your voyage into 3D avatar cyberspace. It is a space station with dozens of rooms and spacepods connected by hallways and escalators. You can choose really cool realistic avatars from the Avatar Gallery (ranging from fish to businesswomen!). Unlike many 3D worlds, Worlds Chat is *fast!* You can run around the station at full speed, almost as fast as being in *Doom* but you don't have to worry about being killed by monsters! People in Worlds Chat are friendly and talkative (with text chat) and will help you learn the tricks of the station.
