

SPIRIT14.EXE contains the **Sword of the Spirit** Screen Saver for Windows version 1.41.

Now with background graphics! **Sword of the Spirit** is a full featured Bible screen saver. Registered users have access to verse collection files, which allow you to select the topic of the verses displayed. Custom verse collection files are also available. Registration is only \$10.

Run SPIRIT14.EXE to extract and install the software to your computer. Refer to the windows help file after installation for information about configuring the screen saver, license agreement, registration, how to get updates, etc..

If you have problems or questions, contact Creatwal Software via e-mail at creatwal@fay.infi.net. Please include the program version number and a detailed description of the problem.

Visit Creatwal Software on the web at <http://www.infi.net/~creatwal/>

The screen saver requires that VBRUN300.DLL be in your windows\system directory.
