

Mister Blue

Animated Cursor Set

Version 1.0

Installation Instructions

Congratulations! You've just downloaded the neatest little set of animated cursors around. Just follow the installation procedures, and you'll be on your way to testing out Mister Blue.

(Reminder: If you don't have Windows® 95 or Windows NT™, then you can't use Mister Blue. Sorry!)

The downloaded self-extracting file, "Mister10.exe" contains the following files:

- Setup8.wri: This text file containing the installation procedures for the Mister Blue Animated Cursor Set
- Demo8.zip: A compressed file containing the 3 demonstration cursors
- Order.wri: An Order Form for purchasing the full set of the Mister Blue Animated Cursor Set
- Catalog.wri: A catalog file listing the cursor sets available from K 'n S Associates. Along with the cursor set names, the file includes catalog numbers, unit prices, and color pictures to represent the cursors.
- Full8.zip: A compressed file containing the full set of 15 Mister Blue cursors (requires a password to decompress)

The following is a list of the demo files contained in the "Demo8.zip" file and the Windows® 95 and Windows NT™ cursor/pointer types for which they would best be used (these are only suggestions):

Mister Blue Normal Select.ani	Normal Select	Arrow
Mister Blue Text Select.ani	Text Select	I-Beam

To purchase a full version of the Mister Blue Animated Cursor Set, or any of the cursor sets, print out the order form located in the file “Order.wri” and mail it along with your check or money order today. You will then be emailed a password for each set you order that will enable you to unzip (decompress) the file containing the full set of cursors (Full8.zip). Or, if you prefer, you may order an uncompressed version of the cursor sets which you will receive via U.S. Mail on a floppy disk (U.S. orders only).
