

Ageratum

Also called flossflower
(*Ageratum*)

Long-lasting, fuzzy, quarter- to half-inch blossoms on plants 3 to 6 inches tall. (A few reach 2 feet). Blue, white, and pink. Varieties: Summer Snow, Blue Mink, Royal Blazer.

Soil and Light

Full sun. Will tolerate some shade. Tolerant of all soil conditions.

Planting

Start 6 to 8 weeks early indoors, or buy transplants. May be replanted in late summer in mild areas.

Comments

Use plants for edgings, borders, rock gardens, or pots.
