

Cleome

Also called spider plant

(Cleome spinosa)

Flower clusters, 7 to 9 inches across, with trailing stamens. Stems 3 to 6 feet tall. Pink, rose, or white. Varieties: Ruby Queen, Helen Campbell, Rose Queen.

Soil and Light

Full sun. Rich soil kept on the dry side.

Planting

Plant seeds outdoors after frost danger passes.

Comments

Unusual seedpods useful in dried arrangements. Use as a screen plant or patio tub plant.
