

## **Dimorphotheca**

Also called cape daisy

*(Dimorphotheca)*

Three- to 4-inch, daisy-like blossoms on plants 1 foot tall. White, yellow, salmon, rose, bicolors. All shaded blue on underside.

### **Soil and Light**

Well-drained soil kept dry. Full sun.

### **Planting**

Start 5 weeks early indoors, or sow outdoors after frost danger. In warm climates, sow in fall.

### **Comments**

Colorful. Flowers close up at night. Thrives on heat.
