

## **Flax**

*(Linum sp.)*

Two-inch single flowers on grasslike stems, 18 to 24 inches tall. Red, blue, violet, pink, or white.

### **Soil and Light**

Full sun. Well-drained soil.

### **Planting**

Plant seeds outdoors in early spring or fall in warm climates. Sow every 3 to 4 weeks for continuous bloom.

### **Comments**

Difficult to transplant. Use in beds or borders.
