

## **Gypsophila**

Also called baby's-breath

*(Gypsophila)*

Quarter-inch, rounded flowers on branched stems 15 to 24 inches. White or pink. Foliage is finely cut. Varieties: Covent Garden White, Rose.

### **Soil and Light**

Full sun. Does best in poorer soils.

### **Planting**

Plant early outdoors. Sow seeds every 3 to 4 weeks for a continuous supply.

### **Comments**

Provides a light, airy contrast in the garden. Cut for fresh arrangements.
