

## **Rudbeckia**

Also called gloriosa daisy  
(*Rudbeckia sp.*)

Large, single, daisy-like flowers on stalks 18 to 24 inches tall. Flowers have brown centers with yellow, orange, or bronze petals.

### **Soil and Light**

Full sun, but can tolerate partial shade. Well-drained soil.

### **Planting**

Sow seed in late fall or early spring outdoors. Plants often self-sow.

### **Comments**

Trim back flowers to encourage new growth. Cut flowers for fresh arrangements.
