

Dogwood

(Cornus sp.)

Flowering

(C. florida)

Type: Deciduous

Zone: 5

Height and Width: 15'-30' tall

Shade Density: Light

Fall Foliage: Orange;brown;red

Soil Preference: Well-drained

Comments

Use as specimen trees or accent plants. Best in lightly shaded areas. Have 3- to 5-inch , pink or white, single flowers. Most varieties bear red inedible berries.

Japanese

(C. kousa)

Type: Deciduous

Zone: 6

Height and Width: 20' tall

Shade Density: Light

Fall Foliage: Orange;red;brown

Soil Preference: Well-drained

Comments

Bear 3- to 5- inch white flowers, occasionally tinged with pink. Three-quarter-inch red inedible fruits relished by birds are produced in late summer. Use as specimen.
