

Spruce

(Picea sp.)

Colorado

(P. pungens)

Type: Coniferous

Zone: 3

Height and Width: 100' tall

Shade Density: Dense

Fall Foliage: Not Applicable

Soil Preference: Well-drained

Comments

Dark green to pale blue foliage. Use as specimen tree. Mature trees lose lower branches.

White

(P. glauca)

Type: Coniferous

Zone: 2

Height and Width:

Shade Density: Dense

Fall Foliage: Not Applicable

Soil Preference: Well-drained

Comments

Use as a specimen or in windbreak. Dwarf varieties work well in foundation plantings. Black Hills spruce (*P. glauca* 'densata') is a smaller form of white spruce.
