

Clematis

(Clematis sp)

Armand

(C. armandi)

Type: Perennial

Zone: 7

Fruit and Flower

White flowers in spring.

Comments

Blooms on previous year's wood; prune after flowering. Evergreen or semievergreen.

Big-Petal

(C. macropetala)

Type: Perennial

Zone: 6

Fruit and Flower

Large blue flowers with many sepals in spring.

Comments

Prune after flowering.

Curly

(C. crispa)

Type: Perennial

Zone: 6

Fruit and Flower

Long purple, bell-shaped flowers all summer.

Comments

Blooms on current year's wood.

Duchess of Edinburgh

(C. florida hybrid 'Duchess of Edinburgh')

Type: Perennial

Zone: 6

Fruit and Flower

Pure white double flowers resemble gardenias.

Comments

Blooms on previous year's wood.

Durand

(C. x durandi)

Type: Perennial

Zone: 6

Fruit and Flower

Dark blue flowers with white, midsummer, seed heads in fall.

Comments

Dies to ground in winter.

Fragrant Tube

(C. heracleifolia 'davidiana')

Type: Perennial

Zone: 4-5

Fruit and Flower

Fragrant blue flowers in late summer.

Comments

Does well in full sun or partial shade.

Golden

(C. tangutica)

Type: Perennial

Zone: 5

Fruit and Flower

Large bright yellow flowers in late spring; seed heads in early fall.

Comments

Soft, gray-green leaves form good background for masses of flowers. Needs full sun. Blooms are long-lasting.

Henryi

(C. henryi)

Type: Perennial

Zone: 5

Fruit and Flower

Pale flesh-colored to ivory blooms, up to 7 inches across.

Comments

A showy climbing vine. Does best in light, loamy, well-drained soil.

Jackmani

(C. x jackmani)

Type: Perennial

Zone: 6

Fruit and Flower

Large purple flowers in mid-summer, seed heads in fall.

Comments

Popular hybrids. Blooms on current year's wood.

Jouin

(C. x jouiniana)

Type: Perennial

Zone: 5

Fruit and Flower

White or purple flowers in mid-summer; seed heads in fall.

Comments

Vigorous climber.

Nelly Moser

(C. patens hybrid 'Nelly Moser')

Type: Perennial

Zone: 6

Fruit and Flower

Pale mauve petals; profuse bloom.

Comments

Popular hybrid.

Pink Anemone

(C. montana 'Rubens')

Type: Perennial

Zone: 6

Fruit and Flower

Red or pink flowers in late spring; seed heads in summer.

Comments

Long-lasting flowers bloom on previous year's wood. New foliage is bronze-colored. Grows rapidly.

Clematis

(Clematis sp)

Scarlet

(C. texensis)

Type: Perennial

Zone: 6

Fruit and Flower

Many bright scarlet flowers in midsummer; seed heads in fall.

Comments

Excellent ornamental native. Grows rapidly. Evergreen or semievergreen.

Solitary

(C. integrifolia)

Type: Perennial

Zone: 6

Fruit and Flower

Small white, blue, or purple flowers in midsummer.

Comments

A non-twining, bush-form clematis. Flowers bloom at tips of stems. Grows in sun or shade.

Sweet Autumn

(C. paniculata)

Type: Perennial

Zone: 5

Fruit and Flower

Many fragrant white flowers in late summer; seed heads in fall.

Comments

One of easiest vines to grow. Has dense foliage. Resistant to insects or disease. Evergreen or semievergreen. Good for a bank or slope.

Traveler's Joy

(C. vitalba)

Type: Perennial

Zone: 5

Fruit and Flower

Small white flowers in late summer; large seed heads in fall.

Comments

Vigorous species with dense foliage. Good for a bank or slope.

Virgin's Bower

(C. virginiana)

Type: Perennial

Zone: 5

Fruit and Flower

Small white flowers in late summer; seed heads in fall.

Comments

Native; good for a wildflower garden. Grows rapidly. Withstands wet soil.
