READ ME FIRST

Welcome to Navigate with an Accent(TM).

This document contains installation instructions, compatibility information, and other basic information that you will need for using this Evaluation version of Navigate with an Accent. We recommend that you print this document for handy reference.

SYSTEM AND SOFTWARE REQUIREMENTS
To use Navigate with an Accent, you need the following:
1. PC 486 (or higher) with at least 6 MB of RAM (8 MB is recommended).
2. Navigate with an Accent is compatible with Netscape Navigator 2.0 - 3.0, and with Netscape Navigator Gold 2.0 - 3.0. You must install and run Netscape Navigator before installing Navigate with an Accent.
3. You can run Navigate with an Accent on any language version of Microsoft Windows 95 (TM).
4. A full installation of Navigate with an Accent requires approximately 4.3 MB of hard disk space. You can reduce this amount during setup by choosing not to install fonts and Tool Tip languages that you will not need (see Installation below).

INSTALLATION
1. Before installing Navigate with an Accent, you must run Netscape Navigator at least once.
2. To download Navigate with an Accent, follow the download instructions on our Web site.
3. The setup program gives you several installation options. Option 1 lets you choose which font language groups to install. Option 2 lets you decide which Tool Tip languages to install. Advanced Options is for users running more than one version of Netscape.
4. The setup program automatically adds a bookmark ("Load Navigate with an Accent") to Netscape Navigator. Select this bookmark to run Navigate with an Accent.
5. The setup program also installs a program group called Navigate with an Accent. You can open Netscape together with Navigate with an Accent by choosing the Navigate with an Accent icon.
