

DataPage Maker™ : a Web DataPage creation utility.

DataPage Maker™ - DIR (DPM-DIR), Version 1.2, transforms disk file directory information into data files which can be displayed by a variety of applications.

1. Spreadsheet files are formatted to function as Spreadsheets when using any of the modern spreadsheet applications. The directory data of the specified group of files is converted to a Tab-Delimited Text File, with a 'header' row. These type files are easily imported into a spreadsheet program.
2. Web Browser files are formatted to function as HomePages on the World-Wide Web (WWW) and consist of HyperText Markup Language (HTML) that encapsulates the directory data of the specified group of files.
3. Custom Apps may be activated in order to display the directory data of the specified group of files. The NotePad (c:\windows\notepad.exe) is a good example of a 'custom app'.

```
*****
*                                     *
*                               Notice                               *
*                                     *
*****
* There has been a problem reported with DOS-7. *
* If your Windows95 has DOS-7 underneath it... *
* DPM-DIR may NOT function properly.          *
*                                             *
* Fortunately, not all platforms have gone to *
* DOS-7. IF you can execute 'dir *.*' at the *
* DOS prompt level, you will have NO problem... *
* DOS-7 doesn't have the 'DIR' command.      *

```

DPM-DIR operates on 486/586/Pentium™ class PC, with Microsoft (MS) Windows95™. DPM performs the best with at least 8 Megabytes of RAM. The DataPage Maker - DIR is written in Microsoft's Visual Basic™ 4.0 (32 bit version) and requires Visual Basic's Run-Time executive, which is included in the distributed zip file set (DPM-DIR.ZIP).

Special Note: This software is Shareware and has been distributed for evaluation. If you like DPM-DIR, please Register the software package with Entity Master Systems for \$19.50. You will be issued a Registration Number upon receipt of payment, which will extend the life of the evaluation package beyond 30 days. Being Registered, ensures the following benefits:

1. Complete technical support & assistance.
2. Free software upgrades with E-Mail notification.
3. Registered Users receive evaluation copies of other DPM tools.

Sequence of Operation

1. **Select a Directory.** Using the Directory File Selection window upon startup, select both the Disk Drive & Directory containing the disk files of interest. Then select 'OK'. CAUTION: If you do not select a specific directory, all files on the disk will be inventoried -- that may take a little time and require the specified applications to load a large data file.
2. **Control Panel.** After all the data files have been created, the Control Panel is displayed with the "Task Complete..." notice.

<<Spreadsheets Button>>

Choose either Excel™ or Lotus 1-2-3™, for other fine spreadsheet apps use the Custom App button.

<<Web Browsers Button>>

Choose either Netscape™ or Internet Explorer™, for other fine Web Browsers use the Custom App button.

<<Custom App Button (#1)>>

Display your Directory Data in the App of your choice. Try using 'c:\windows\notepad.exe' and then try finding 'winword.exe'. When you have selected a Custom App, you are ready for Button #2.

<<Custom App Button (#2)>>

Once a Custom App has been selected using Button #1, the format of the data to be displayed must be selected. Select either TEXT or HTML.

On-Line Registration

Visit us at <http://www.entity-master.com/> to record problems, get the latest news, products, & advisories. You can also Register on-line and download DataPage Maker tools over the Internet. We encourage you to Register your DataPage Maker Shareware. To insure that you get the latest version, PsL notifies us on the day of your order and we ship the product directly to you. [**Reference PsL Product #14942**]

Product Registration

We have contracted with **Public (software) Library (PsL)** to process any orders that you may wish to place with your valid MC, Visa, Amex, or Discover cards. Reference PsL Product #14431. PsL may be contacted via any of the following methods: Voice: 800-242-4775 (7 a.m.- 6 p.m. CST, except Friday afternoons). FAX: 281-524-6398. E-MAIL: 71355.470@Compuserve.Com. You may also mail credit card orders to PsL, P.O. Box 35705, Houston, TX 77235.

THE ABOVE NUMBERS ARE FOR CREDIT CARD ORDERS ONLY.
THE PROGRAM AUTHOR CANNOT BE REACHED AT THE ABOVE NUMBERS.

Questions, Problems, and Comments

Any questions about the status of the shipment of the order, refunds, registration options, product details, technical support, volume discounts, dealer pricing, site licenses, non-credit card orders, etc. must be directed to Entity Master System.

Contact

You may contact Entity Master Systems by mail: c/o Dave Fashenpour, 714 Regency Court, Friendswood, TX 77546; or by phone at 281-996-0819.

You may send E-Mail to either: 76461.2413@compuserve.com or
ems@entity-master.com -- but best of all, visit our HomePage at:
