Shareware Registration

The registration of STI shareware involves the payment of a registration fee and the receipt of a registration code that typically disables a "nag screen" and permits continued use of the software under a license granted by Spaeder Technologies, Inc.   On receipt of your registration code, you must input the code (often with your last name as registered) to the program by clicking on the registration item of the Help menu. Since you always receive the distribution version when you download our shareware products for evaluation, STI does not send you a software disk. For information on site licenses, contact STI directly by by E-mail or US Mail.

Discounted Mail Registration to STI (No Credit Cards)

If you register by mail to STI with payment enclosed, each of the above fees is discounted by $3 per registration. Because mail registration to STI is discounted, STI does not accept mail registrations unless payment is enclosed. Checks and money orders should be made payable to Spaeder Technologies Inc. and mailed directly to STI. All credit card registrations (on-line, by telephone, Fax or E-mail) must be made through NorthStar Solutions. For further information, click on a topic below.
