Dear \OV118

This is where you need to write in the standard letter which you intend to mail out to all the entries in cardbox 6. You can use any of the standard Wordperfect or Wordstar (not both) functions within your letter. Say a bit of **BOLD** or indeed **BOLD AND UNDERLINED**.

Whatever !

Note now we put in the page break after the your sincerely this will mean that each letter is slit by a page break.

The OV commands take the contents of the cardbox and put them into the text. The AD command tells the system to do this precedent for ALL DATA in the cardbox file 06. The LD command puts in a long date.

For more in precedent commands see the manual 'IN PRECEDENT COMMANDS'.

Yours Sincerely

\SB OV122
