Shareware Information

This stack is shareware and is publicly distributable. You can copy it freely, as long as this documentation is kept in full. If anyone uses any scripts, buttons or icons from this stack I would appreciate acknowledgement, and I welcome any modifications, suggestions, corrections, and/or directions at all!

If you like this stack and use it please send $10 U.S. (in cash or U.S. bank depositable check) and the stack's registration form to:

Kevin Hughes   * Click on the "Registration Form" button *
Synectic Engineering   * in the Help Topics dialog to get to the   *
#2209 McKinley Street   * registration form.   *
Honolulu, HI   96822-2135

If you do not send in the shareware fee, please do not use this stack or even leave it lying around - at least make a copy for someone who will pay and will use it.

This is the sixth version of this stack, and it will only work with HyperCard 2.0 or better. The stack should be fully System 7.x compatible, although if you are using System 7.x you should use this stack with HyperCard 2.1 or better. A lot of time has been put into this stack, and future updates will continue as long as I find current ZIP codes or other worldly data. Users already registered do not have to pay another fee for later versions - they need only send me a 800K or 1.44MB disk (whatever your Mac takes) with the stack registration form and I'll send them the latest version of this stack. Sorry, but versions 2.x and older of this stack are no longer supported, due to the amount of changes that have been made. For more information on stack requirements and such, see the "Final Information" topic.
