

Hero

A moving cast member. It can be animated and can move around in the background.

A Hero is the cast member you control when the adventure is run in real-time.

Only 1 hero per scene is allowed.

Use the Edit menu command: Paste Picture to paste a picture copied from a color paint program into a Hero window.

Note: Make sure the picture you paste into a Hero or Obstacle window won't need to be replaced later after you've built the Runs for the cast member.

See Moving Cast Member for more information.
