

Deuces Wild

This is the original Deuces Wild game. It is distinguished by its four-of-a-kind payoff of five for one and no special bonuses for "natural" hands (except for the royal flush, of course).

It is by far the most common wild card machine found in Las Vegas. Machines with the payoff schedule in the program are sometimes called "Full Pay" Deuces. Some casinos offer a version of this machine with some of the payoffs reduced. They may change the four-of-a-kind payoff to 4, the wild royal to 20 (instead of 25), or the five-of-a-kind to 12 instead of 15. Some places even have the nerve to reduce all three at once! Be sure to shop around for a full pay machine.
