BBS IN A BOX • VOLUME IX

VOLUME VIII Hits the Streets...

A Great CD-ROM for BBS or Personal Use!

The "BBS IN A BOX" CD-ROM is designed to allow Macintosh Bulletin Board Systems (BBS) running First Class, Hermes, Mansion, MUBBS, Nova Link, Second Sight, and Telefinder BBS software to link their system to the CD-ROM for an instant 1.95 GIGABYTE public domain and shareware library. BBS users may then read all of the descriptions from the CD-ROM directories and decide which files they desire to download.

This same library may be used by individuals who want the most current collection of Macintosh shareware and public domain software available at their finger tips. Descriptions of these files are provided in a number of formats including On Location, text format, Filemaker Pro, "Show Info" and our HyperCard index "PD Pig Out!"

Why would I want BBS in a BOX?

Those Mac users who have tried BBS in a BOX know that it is the largest and most up to date Macintosh collection anywhere. Over 200 BBS systems utilize the BBS in a BOX CD-ROM as their CD of choice. With descriptions of files available in drag & drop form and text directories, BBS in a BOX makes shareware and public domain easily accessible for the Mac user. The Arizona Macintosh Users Group is the name to know in CD-ROM.

1.95 Gigabytes!

Approximately 9,000 files and 640 megabytes of compressed Macintosh software is available on the "BBS IN A BOX" CD-ROM Volume IX. When AMUG decompressed this collection on a 3 gig drive it exceeded 1.95 Gigabytes! This CD-ROM is the most current collection available with items added as late as June 18, 1993. (Of course, if a new version of the BBS in a Box CD-ROM has been released when you order, we'll ship you the newest version. We always ship the absolute latest version of all our products.)

What's on the CD-ROM?

over 55 AppleLink items,   296 Adobe Screen font files, 438 Art files, 431 Business tools, 176 DA's, 312 Educational tools, 623 Fonts, 428 Games, 886 HyperCard tools, MacTechnical Notes, 266 MUG Newsletter Reviews, 158 MIDI files, 337 Music files, 339 Programmer tools, 123 QuickTime tools, 545 Telecom files, 361 System 7 tools, Decompression applications, 1185 utilities for the Macintosh, updates, 214 Word processing tools and support articles and more!

Drag and Drop Description Reader!

Our off line description reader "Show Info" allows System 7 users to drag and drop files on to this tool to display descriptions of any of the files in the files folder before decompressing them. This is a nice feature for finding information on a single file without having to decompress it or look through a directory. All compressed files on Volume IX are in Compact Pro format for consistency and ease of use.

BBS Descriptions - Database Searches

Volume VIII supports On Location search engines. In addition , text file listings and other database tools are provided in various formats. "BBS IN A BOX" is the ONLY CD-ROM that provides BBS descriptions on over 640 megs of compressed Macintosh BBS software. Using Show Info you can easily display the discriptions as well.
