TES

@6

6

In tutorial 1, you examined the 3 records that come in the Master File as Test Data. They are for trucks with these license numbers:

0

STW366, UTR399, WRX332.

0

SERVICE PLUS [TM] relates activities to master records. In this case, those activities are service calls being related to trucks. But you could just as easily relate maintenance and service to hotel rooms, where each room received one master record; or plumbing activities to mechanics. The possibilities are endless! The phrase 'Service Call' that appears in the activity file can be changed to anything you want back at the custom options menu.

The Test Data contains 21 activities related to those 3 trucks.

0

We will now look at a few of those records.

@27 27

N 0

This activity record is the first for truck STW366. Even though it appears to contain much detail information, most of it is filled in by the program. All you do is select which truck you want to record an activity for, then enter data into one of these fields:

Comments, Date of Next Appointment, Billings from this Activity. 0

This ability to add activity records for existing trucks will be covered in a later tutorial. For now, enter an 'N' to go to the next activity. 0

Now we have arrived at the third activity for this truck.

0

Let's say that instead of using 'N' and 'P', we want to Search

0

for those activities for truck WRX332. First enter 'S' for Search.

0

Then in the search screen enter 'WRX'.
