TEXT1,C,79   TES
@6   6
In this tutorial, you will add one more truck or record to the 3 that   0
already exist in the Master File.   0
                                                                                              0
                                                                                              0

@6	6
Anytime you add a record to the Master File, the program	0
will continue to present one data entry screen after the	0
other. The only way it knows to stop asking for new records	0
is if you leave the Primary ID blank. Conversely, if you fill	0
in every field for one new record EXCEPT Primary ID, the program	0
will ignore that record entirely.	0
-	0
You have the ability to search through the program for any 1st, 2nd,	0
or 3rd ID, as well as by any word or phrase that you had entered	0
into the comments field. This is true of the Master records and the	0
Activity records also. You have an entire menu devoted to this one	0
function: Search Through Service Call Data (option #2, Master File Menu).	0
	0
