Seek Time(msec) (Includes settling)					
Track-to-Track	4	4	4	4	4
Average	16	16	14	16	14
Effective	3.9	3.9	3.9	3.9	3.9
With Multisoft Pckwik	0	0	0	0	0
Power Dissipation(W) (Drive,typical)	31	31	24	15	15
MTBF	150,000	150,000	150,000	150,000	150,000

The industry's leading,easy to install, complete and fully featured
5 1/4-inch ,high performance, high capacity ESDI-based disk drive
add-on/upgrade kits for IBM PC/AT and compatibles.

The SCSI Performance Advantage Kits Offer:

[] Novell(TM) NetWare(TM) 286/386, SCO(TM) Xenix, Unix, and DOS
compatibility
[] Data rates of up to 20 MHz
[] Access times as low as 14.5 msec
[] Supports six hard disk drives and one SCSI tape backup
[] Multisoft award-winning PC-Kwik software
[] All hardware, documentation, and software in a single package

Available in five formatted capacities:

PC PAK Model	Formatted Capacity
1578	331 MBytes
1588	668 MBytes
1598	1,034 MBytes
1674	158 MBytes

1684   340 MBytes

Each PC PAK includes:

[] A Micropolis high performance hard disk drive
[] A SCSI host adapter for the PC/AT bus
[] Multisoft software and documentation
[] Complete end-user hardware and software documentation
[] Installation software for Novell NetWare, SCO XENIX, UNIX,
   and DOS
[] Cable and mounting hardware

All this backed by a full one-year warranty.
