QUALITY CONTROL MANAGER

OBJECTIVE:

To serve as a Quality Control Assurance Manager with a manufacturer or industrial engineering company and advance to an executive position in production.

EXPERIENCE:

Over six years' experience in quality control supervision with two major American manufacturers.

QUALITY CONTROL SUPERVISOR, **Pedersen-Bryant, Inc.**, Geary, Illinois Plant (1993-present). Supervised staff of 35 inspectors in electronic trip-up department; managed routine testing of five standard components and special testing of tailored assemblies; served as reliability member of production team; and regulated the quality control adjustments of six forepersons. A cost and standards review credited me with a 67 percent improvement in production efficiency.

QUALITY ASSURANCE ENGINEER, **Dren-Die Tooling Co.**, Delawanna, New Jersey (1988-1993). Controlled reliability through all production cycles from purchasing to client delivery, reviewed client and government specifications; developed and supervised appropriate tests; recruited and trained all inspectors and testers; managed all documentation.

EDUCATION:

Thorough training in management and mechanical engineering.

MASTER OF BUSINESS ADMINISTRATION, **Leonard N. Stern School of Business, Graduate Division, New York University** (June 1988). Major: Industrial Management.

BACHELOR OF SCIENCE IN MECHANICAL ENGINEERING, **Ohio State University** (June 1985).

ASSOCIATIONS:

Member of the American Association of Quality Assurance Engineers and American Society of Mechanical Engineers.
