

New Product Guide

Macintosh CD-ROM Game: [Absolute Zero](#)

Publisher: Domark/Spectrum Holobyte

Price: \$45

Alien beings awaking from their subterranean hibernation have burst from the core of your ice planet and threaten to destroy your colony! This interactive "space combat simulator" from Domark promises to bring action and excitement to Mac gamers, featuring full-motion rendered animation, full digitized speech and an original soundtrack. For Power Macintosh only.

Macintosh CD-ROM Game: [Buried in Time](#)

Publisher: Sanctuary Woods

Price: \$55

Also known as The Journeyman Project 2, Buried in Time is the sequel to the original Myst-like game of interactive adventure and time travel. As Temporal Security Agent Number Five, you've been framed for a crime you didn't commit: temporal sabotage. You must journey in time looking for the clues to solve the mystery.

Macintosh CD-ROM: [Apollo XIII](#)

Publisher: Odyssey Interactive

Price: \$39.95

This Apollo XIII documentary tells a multimedia story through live NASA footage, still images, narration, animation, newspaper articles and interviews with the astronauts and flight controllers involved in the mission.
