

Dynamic Effects

Use these tools to check how your garden will look at different times of the day or year once you have completed your design.

Click the **Mini View** tab to access these tools.

- **The Shadow Caster** shows you, in the Top View window, where shadows will fall at any time of year.
- **Growth Over Time** lets you see how large the major plants will be in both Top View and 3D.
- **Seasonal Change** shows you roughly how your plants will look throughout the year. It operates only in the 3D View.
