# _SftColor 1.0 Demo_

Please note that all applications included with this demo are 16-bit applications.

SftColor 1.0 fully supports Windows 3.1, Windows NT and Windows 95 (and Win32s). The product includes 16-bit and 32-bit DLLs.  The SftColor API and C++ classes are identical in all environments.

### _Running the Demo_
To install the demo run SETUP.EXE.  An uninstall feature is available so the demo can easily be removed.
