

Nick's Campaigns. For The Ancient Art of War®

This file contains for AAW campaigns with tips.

Contra

This one is tricky, even with Ivan. Use hit and run techniques. Capture flags unguarded, but run if you have to. Reduce squads to less than three to prevent capture.

The Battle of the Double Span.

This one, if you can capture the forts, stay there. Divide your squads in the fortress to produce more troops.

Back in Time, Ivan Style

This can be a losing proposition if you try for his fort. Instead, use the defensive procedures mentioned earlier.

Terrain Sampler

Terrain Sampler is just that, a sample of terrains. Combat starts immediately. This is for information only.
