

This program was originally written on a Texas Instrument-99 piece of garbage computer. It has been adapted to the MacIntosh...how I don't know because I don't program. It is shareware for a measley \$5.00. If you think it is worth \$5.00, please send to:

Gary Garrett
11330 Pine Acres Rd.
Mandarin, Florida 32217

If you don't think it is worth the \$5.00 send the money anyway or he may keep programming this stuff. This program is uploaded by permission of the author, by Dave Ford (7 1 5 6 1, 5 7 7)
Enjoy.....G.G.
