EXPRESS Ranked #1 in Performance and Ease-of-Use

Arts & Letters *EXPRESS* is the top of the Arts & Letters line. It includes over 10,000 Drag & Drop clip-art images organized in over 190 libraries. Among the 190 libraries are Aircraft, Cartoons, Computers, Fantasy, Flags, Holidays & Seasons, Landmarks/Historic Sites, Maps, Musical Instruments, Nature, People, Religion, Science Fiction, Signs, Space, Sports & Recreation, and Transportation. The Clip-Art Manager displays previews of each image and provides a keyword search feature.

Pushpins allow dialog boxes to be kept on-screen during editing sessions. Assign attributes by selecting from visual palettes of fills and line styles.

The Color Filters feature allows you to adjust the colors of all objects in a file -- or just a few -- without breaking apart the objects: convert to grayscale, replace hue, add/remove (mix) paint are just a few of the controls.

Extrude and Warp/Perspective allow you to simulate two-point perspective and three-dimensional effects automatically. Hole-cutting allows backgrounds to show through objects. Autotrace automatically transforms bitmaps (scanned images) into editable objects.

Additional advanced features include masking and polymorphic tweening. A dynamically updated Hint line displays options and identifies tools and commands. An on-line glossary and keyword search facility provide instant answers to any questions. Sophisticated editing tools, construction toolbox for precise drawing, line-to-curve conversion, and 4-color separations make Arts & Letters *EXPRESS* the equal of any graphic arts task.

Whenever you're ready, we've reserved a copy of *Arts & Letters EXPRESS* for you for the next 30 days at a very special price!

Discover how easy it is to use Arts & Letters DRAW and then step up to the top of the line of Arts & Letters graphics products. *Arts & Letters EXPRESS* comes complete with over 10,000 Drag & Drop clip-art images, 1,000 fonts, powerful drawing and editing tools, greeting cards, calendars, templates, and dozens of other features. See the order form below.

In laboratory tests conducted by one of the largest and most influential computer magazines in Europe, MikroDatorn, Arts & Letters was ranked #1 in ease-of-use and performance vs. CorelDraw 4.0 & 5.0 and Micrografx Designer. For example, in total time to print the same page, Arts & Letters was over twice as fast as Corel 4.0 and 5.0.

Featured on the cover of CD-ROM Today (February '95), EXPRESS was awarded Editor's Choice. John Agger, writing in Windows World Magazine, said in a recent review; "There is no other program on the market that offers so many functions and incredible performance. EXPRESS is a wolf in sheep's clothing; it's fast, efficient and powerful -- yet easy to learn and even easier to use."

And performance is just one of the reasons it's called Arts & Letters EXPRESS.

Also included is a step-by-step tutorial and multimedia Tips & Techniques on CD-ROM. Experienced artists and designers will show you how to create stunning graphics in minutes. And we'll include a Logo Collection and Design Guide with tips on designing you own logo, stationery and business cards.

EXPRESS - die Nr.1 in Geschwindigkeit und Bedienungskomfort

Arts & Letters *EXPRESS* ist das Top-Produkt aus der Arts & Letters Produktreihe. Es enthält über 10.000 Drag&Drop Clipart-Grafiken in über 190 Bibliotheken. In den 190 Bibliotheken sind enthalten: Luftfahrt, Cartoons, Computer, Phantasie, Flaggen, Ferien & Feiertage, Landschaften/Historische Ansichten, Landkarten, Musikinstrumente, Natur, Menschen, Religion, Science Fiction, Schilder, Weltraum, Sport & Erholung und Transportmittel. Der ClipArt-Manager zeigt eine Vorschau auf jede Grafik und stellt eine Schlüsselwort-Suche zur Verfügung.

Über sog. Pushpins kann man Dialogfenster während des Editier-Vorgangs auf dem Bildschirm halten. Attribute lassen sich zuordnen, indem man sie aus angezeigten Füllpaletten und Linienarten auswählt.

Mit der Farbfilter-Funktion können Sie die Farben aller Objekte in einer Datei einstellen -- oder nur von einzelnen -- ohne die Objekte dabei herauszulösen: Halbton-Konvertierung, Farbton-Ersetzung, (Misch-)Farbe hinzufügen bzw. entfernen sind nur einige der Einstellungsmöglichkeiten.

Mit der Extrudieren- und Verändern/Perspektive-Funktion lassen sich automatisch eine Zwei-Punkt-Perspektive und dreidimensionale Effekte simulieren. Mit der Funktion Löcher aussparen können Hintergründe durch Objekte hindurch sichtbar gemacht werden. Die Funktion Vektorisieren wandelt Bitmaps (gescannte Bilder) automatisch in editierbare Objekte um.

Zusätzliche weiterentwickelte Funktionen beinhalten Maskieren und polymorphes Tweening. Eine dynamisch aktualisierte Hilfszeile zeigt Optionen an und erklärt Werkzeuge und Befehle. Ein Online-Glossar und eine Schlüsselwort-Suche geben Ihnen schnell Antwort auf alle Fragen. Mit seinen hochentwickelten Editier-Werkzeugen, einer Konstruktions-Toolbox für exaktes Zeichnen, der Linie-zu-Kurve-Konvertierung und der 4-Farb-Separation ist Arts & Letters *EXPRESS* jeder Grafik-Design-Aufgabe gewachsen.

EXPRESS hat die Funktionen, die Sie brauchen!

Prisbelönt datorgrafik

Arts & Letters EXPRESS (Editor) är toppprodukten i Arts & Letters produktlinje. Den innehåller mer än 10.000 Drag- och släpp-symboler & bilder organiserade i drygt 190 bibliotek. Bland de 190 biblioteken ingår flyg, skämtbilder, datorer, fantasi, flaggor, helger & årstider, historiska byggnader, kartor, musikinstrument, natur, folk, religion, science fiction, skyltar, idrott & rekreation, världsrymden och transportmedel. Bibliotekshanteringen erbjuder förhandsvisning av varje bild samt tillhandahåller en sökfunktion.

Häftstift gör det möjligt att låta dialogrutor stanna kvar på skärmen under redigering. Tilldela egenskaper genom att välja från synliga paletter av fyll- och linjemönster.

Färgkorrigerings-funktionen låter dig justera ett dokument eller enstaka objekts färginställningar utan att bryta isär objekten: omvandla till gråskalor, ersätt nyanser, lägg till/från (mixa) färger är några exempel på tillgängliga metoder.

3D-effekt och Vräng/perspektiv låter dig automatiskt simulera tvåpunkts perspektiv och tredimensionella effekter. Hållklippning låter bakgrunder synas igenom objekt. Kalkera punktbild omvandlar automatiskt punktbilder (inscannade bilder) till redigerbara objekt.

Ytterligare avancerade funktioner inkluderar bl a klippmaskeringar. En info-rad visar möjliga val och identifierar verktyg och funktioner. En ordlista och sökords-möjlighet ger direkta svar på frågor du har om handhavande. Kraftfulla redigeringsverktyg, verktyg för precisionsritning, linje till kurva-omvandling samt 4-färgsseparatorer gör *Arts & Letters EXPRESS* redo för avancerat grafiskt skapande.
