

Angela's Bug Swat

December 1993

General

Angela's Bug Swat is a little Visual basic 3.0 game to sharpen your mouse operating skills. Of course it can be just played for the fun of it. This is the second Version of this program (previous version was August 1993). I have added a few more bug types, a border around the form, "improved" Multimedia sound detection and added a little cursor action on this one. BOTH individuals who registered the first version are welcome to use this version without any additional payment (I thank them for their honesty).

HONEST PERSONS LIST

Cecily Dexter New York, NY
Keith & Sandra Burgess Virginia Beach,VA

A special thanks to them !!!

System Requirements

1. Windows 3.X
2. VBRUN300.DLL - this is a Visual Basic program
3. MultiMedia wave playing capability - not required, but does enhance the program

SetUp

1. Make sure you have a copy of VBRUN300.DLL in your Windows\System directory. I have not supplied a copy of this file due to its size. You can obtain a copy from most Bulletin Boards.
2. Copy the following files to the directory of your choice (i.e. c:\swat).

SWAT.EXE
BIZZ.WAV
SWAT.WAV

3. Install SWAT.EXE in the Program Manager Group of your choice. Refer to your Windows manual for details.
4. Double Click the program icon to start the program.

Program Operation

The object of the game is simple. When you see a bug click (swat) it. You get one point for each bug you swat and one point subtracted for each that escapes. The game begins when you click Start and lasts for about 30 seconds. You may change the speed of the game from Slow (default) to Medium to Fast. Beware, Fast can be quite frustrating on a fast machine. If you have Wave Playing Capability you will hear distinct sound effects as you play. If these affects prove to be annoying, you can turn them Off with a click. Have Fun!

Warranties

The author (me) assumes no liability for any loss you may associate with the use of this program. I have tested this program on my computer and have experienced no problems, however, I do not know what your system is like. If you have a particular problem or question you can contact me on Compuserve (see info below). I will be glad to try to help.

ShareWare

This Program is NOT FREE. If you use it after 30 days of receipt then please send \$1.00 to:

Mike Murphy
1385 Majolica Road

Salisbury, NC 28147

I appreciate your evaluation, however, I appreciate being paid for my work if you continue use of the program. Honesty is the best policy (believe it or not).

Distribution

If you upload this program to other BBS's or give it away, please make sure that you include the following files:

SWAT.EXE
SWAT.WAV
BIZZ.WAV
SWAT2.WRI

Thanks,
Michael J. Murphy
