WELCOME TO GREAT GOLF COURSES OF THE WORLD SCREEN SAVERS

Great Golf Courses of the World Screen Savers provides you with 10 different screen saver series – each containing 20 beautiful images of golf courses and golfing from around the world.

You are licensed to install one copy of the program and of each screen saver on one computer for your own personal use.

SETTING UP A SCREEN SAVER

Installation of Each Saver

Each screen saver is provided in a "package" file. **A screen saver must be installed in Windows before it can be used**. This is required *once for each individual screen saver.* This is a requirement of Windows.

Great Golf Courses of the World Screen Savers provides an automated setup for each screen saver.

To select a screen saver to install, run the Great Golf Courses of the World Screen Savers program. A shortcut for this program is created when you install the CD:

The image collections are named for types of old-fashioned golf clubs. Grand Slam is ALL of the savers. NOTE: This may be extremely slow on machines that have relatively small amounts of memory or slower processor speeds. To install a screen saver, click on the saver of your choice, and then click on the OK-Install button.

Follow the prompts to install the screen saver and make it available for your use.

OTHER OPTIONS

- The Help button activates help (this file).
- The About button shows copyright and version information.
- The Close button ends the program and returns to Windows.

SETTINGS

Wallpaper, Security, Display

After the screen saver is installed, you will then see the following options dialog box:
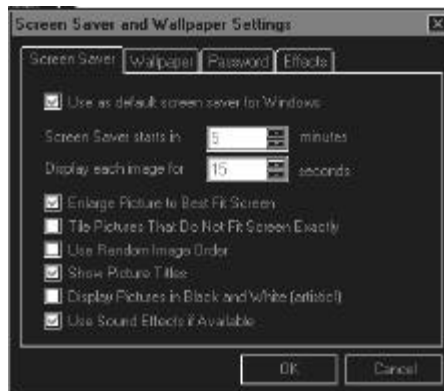

PREVIEW

The Preview choice shows you the screen saver without needing to wait for the system to be idle.

SETTINGS

The Settings button is the most important button. You will see the following "tabbed notebook:"

If you select Use as default screen saver for Windows, the saver currently on the screen will become the saver activated when you are idle. You may customize it when the saver starts, as well as select how long each image will be shown.
The other advanced settings on the Screen Saver page include:

- Enlarge Pictures to Best Fit Screen (not recommended; images are already optimized for VGA).
- Tile Pictures That Do Not Fit Screen Exactly (not recommended).
- Use Random Image Order (matter of personal taste).
- Show Picture Titles (not recommended).
- Display Pictures in Black and White (not recommended).
- Use Sound Effects if Available (matter of personal taste).

3

Wallpaper is the image displayed on your desktop. You may switch between several different wallpaper types.

To use an image as wallpaper, highlight the image and then click on the Wallpaper button:

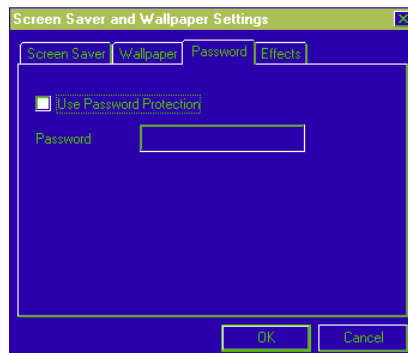

The program will automatically set the current image as your wallpaper.

The other advanced settings on the Wallpaper page include:

- Use Wallpaper on Desktop (matter of personal taste).
- Enlarge Picture to Best Fit Desktop (not recommended).
- Tile Wallpaper That Does Not Fit Desktop Exactly (not recommended).
- Use Black and White Wallpaper (matter of personal taste).
- Automatically Cycle Wallpaper (matter of personal taste).
PASSWORD

The Password page selects whether or not the screen saver will require a password to close:

IMPORTANT NOTE ON PASSWORDS: If you choose to password protect your screen saver, and if you wish to change or to eliminate the password at a later time, DO NOT use the Windows Control Panel Display icon to make the change. Make the change within the setup program provided with the saver.

EFFECTS

The Effects page allows you to select which effects will be used between images. Select the effects available as you see fit.

Changing Screen Savers

After you have installed a screen saver once, you may select it or change to no saver, or to any other screen saver. This is done through the Windows Control Panel.

To reach the control panel, click on the Start button and select Settings, then Control Panel. Now select the Display icon.

You may then manage your screen savers from the Screen Saver tab:

Your screen may vary due to different installed equipment.

5

Windows recognizes the settings that you used when you installed a saver. You may change the settings as you see fit.

For more information on the settings, please consult Windows help.
