# HOW TO USE HaCkERz KronicKlez:

Put the Cd-Rom into your Cd-Rom Drive and it will automatically start if you have your autorun enabled. If not click on START and then choose RUN from Windows 95. And the command line type in Hack.exe. This will begin installing the program for you. If you already have a browser intalled you may just go to RUN and type FRAMESET.HTM to run the Program.

In order to use this Hackerz Kronicklez you must have an internet browser that supports frames installed on your system. Either Internet Explorer 3.0 or Netscape 3.0. Click the buttons below if you wish to install them.

I prefer using Internet Explorer to browse the Cd-Rom because it allows you to unzip to the directory of your choice when you click on the zip file. With Netscape you must save it to your hard disk first than unzip after.

Enter the letter of your Cd-Rom drive. If something other than D hit delete to erase the box and the enter the letter of your Cd-Rom drive. If you currently have an Internet Browser on your Computer System select which one you prefer to use. The browser you choose must be installed on your system. After your finished click Next.

If you don't have a Internet Browser on your system or if it older than Netscape 3.0 or Internet Explorer 3.0 you should install one of the browser by selecting the button. And if you don't have WinZip 6.2 or newer on your system you should click on the button to install it. Make sure that if you choose to Install a Browser from here that you selected the same one from the previous page. If you already have Internet Explorer or Netscape 3.0 on your system just click Next to start Hackerz Kronicklez 3. Every version on Windows 95 comes with Internet Explorer so you should already have it installed.

## ABOUT

Hackerz KroniCklez is designed to be an informative tool for the Newbies and Hackerz around the World. We shall produce a neW one Around 4 to months with all new Stuff and goodies going in The Computer and Internet World. With the rapid advance of new and changing technology it is important to know what is happening around you. And the place to find out about these events and issues is here. During production we changed the interface and the way the information we be presented. So this postponed are release date a couple of weeks but in the mean time we were still getting the latest info. Suprisingly we run out of space. This Cd-Rom contains 650 mb full to the rim worth of info. So I guess we officially started the Hackerz Kronicklez 4 with the extra Info Collected. We actually wrote the Program in HTML because it seemed to be the best way to handle lots of information with pictures and hypertext. Imagine trying to organize all this shit!!! This was defintely a project in it's self. Specials thanks to all The HacKERZ, COuriERz, DisTRoZ, CraCKERZ, PrOGRaMMERz who maDe all of this possible!!!!! Have fun and don't do anything StUpiD.
