Index to Past Issues

ABOUT THE SHAREWARE EDITION

The **WinOnLine™ Review™ Shareware Edition** is published monthly by **Windows OnLine™**. It is dedicated to bringing you news and reviews on the latest files available to members of **Windows OnLine™ (BBS)** and the general community of bulletin board users. Print publications just can't match the *immediacy* of this electronic media. Each month we bring you the *newest shareware, freeware* programs and *features,* such as:

Windows Shareware Briefs - Quick and informative reviews of the **newest entries into the shareware and freeware market**. Are they good, bad or buggy? We'll give you useful details that will tell you if it's worth your download time!

New Files - Tasty extracts from the past month of **Windows** files posted at **Windows OnLine™ (BBS)**. Now you will know about that **new graphics driver**, that **freeware update**, or discovered that neat **WAV** or new **FONT** file. All without sifting through files at several other on-line services, if they even have what you're looking for! For new DOS and OS/2 files, call **Windows OnLine™ (BBS)** to review our huge selection.

Feature Reviews - Hear about hands-on experiences with the inner workings of the some of the **newest shareware,** with full glorious and gory details of its ups and downs. Our experienced writers bring you perspective with their frank and honest reviews.

The WinOnLine™ Review™ Shareware Edition
is published courtesy of
Windows OnLine™

We hope you find this publication of great value and interest and become a regular reader. We'd appreciate your comments and suggestions. Leave a comment (C) on **Windows OnLine™ (BBS)** at **1-510-736-8343** (bbs) or write to,

Enjoy!

Wolly

CH-CH-CH-CHANGES

Sorry, fans! Wolly won't be here next week. <u>This will be the last weekly WOLRS!</u>

WHAT!?!?!

DON'T PANIC!! We've decided to make the WinOnLine Review™ Shareware Edition a *monthly* magazine like the original WinOnLine Review™, that monster that features articles on commercial software (Did you see the animated and noisy Wolly in WOLR81?). And the new WOLRS will be *bigger and better* than the weekly (and it will get your whites whiter, brights brighter, and will contain a fresh lemon scent!) You'll see many **more Feature Reviews** from our great staff writers, **new files from the entire month, and a larger Shareware Briefs column.**

So, be patient and keep a stiff upper lip. We'll be back with WOLRS Issue #38 on February 15th. See ya' there!

click me

Enjoy the issue!

Wolly

AUDIO LAB
Wave!!

Audio files are fun to play, but even more fun to play with. Audio Lab allows you to **edit WAV or VOC** waveforms. **Special effects that include echo, reverse, and invert** are easily implemented, and the MDI (Multiple Document Interface) lets you **open multiple windows** for mixing together. Want to watch? Use the **real-time spectrum analyzer.** Wolly would prefer to have an Undo function available to recover from his experimental nature, but who's to complain? **ALAB11C2.ZIP** (227K) is **freeware,** courtesy of **author Hamish Hubbard.**

CD PLAYER
The Secret O' Life is enjoying the passage of time

James Taylor
James Taylor (LIVE) Disk 1 of 2
Secret O' Life

Bob's old stereo system has found a home in the computer room to deliver great sound from his audio card. Wolly could never understand all these high-priced fancy *computer* speaker systems. You can buy an inexpensive receiver and a pair of speakers for the same money! CD Player for Windows is a great way for him to **catalog and enjoy** Bob's CDs. With this program Wolly can instantly find the selection he wants, repeat it, or choose shuffle-play. There's an **oscilloscope view** as well as the normal full screen, or CD Player will **shrink down to just its control panel.** Real quick to learn and easy to use. Registration for **CDPLY232.ZIP** (91K) varies from **$15.00 to $25.00.** Wolly notes he cannot actively boogie and also accurately keyboard, and he sure did get told to *turn it down* a lot during the review.

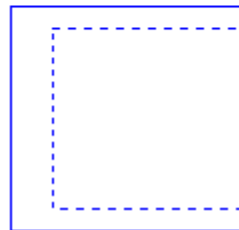

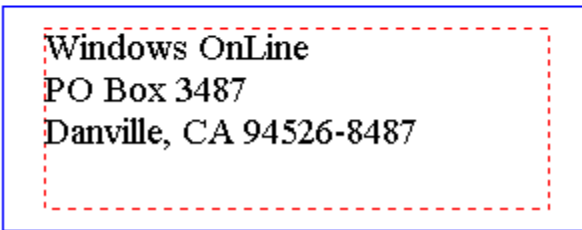

LABEL WIZARD
Magic?

Windows OnLine
PO Box 3487
Danville, CA 94526-8487

Windows OnLine
PO Box 3487
Danville, CA 94526-8487

Here's a **pretty nice label program** that builds labels using proprietary templates that allow entry within their predetermined "panes." The **clean and intuitive interface is easy to learn,** populated by a **handy toolbar,** and makes intelligent use of the right mouse button. Changes are quick and easy, and the **results very nice.** Label Wizard includes templates for a cassette J-card, mailing and 3x3 diskette labels. A **$20.00** registration fee brings additional templates along with a program to create your own. Grab **LBLWZ20A.ZIP** (226K) and take it for a test drive.

DOS DOOR
Yes, I have been at DOS Door
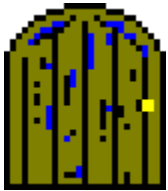

This simple **freeware** door awaits your entrance back **into the dark and unfriendly world of DOS.** A quick click and you're there. Thanks to Mark Alan Pruitt of Studio, Eh? Productions for **DOSDOR11.ZIP** (22K).
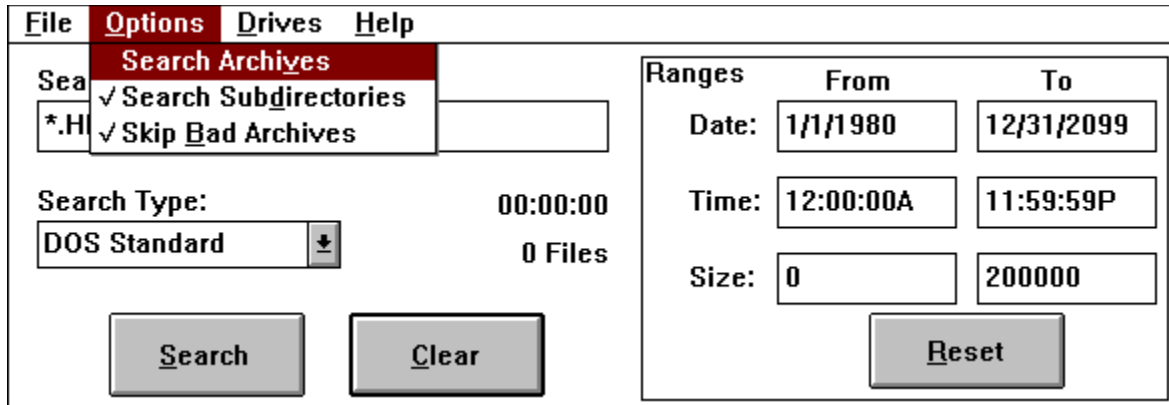

TRUE TYPE FONTS
Better late than never

Pop O Mint ♣♬   AGMINT.ZIP (37K)

FILE FIND
Needles in a Diskstack!

FileFind gives you **plenty to choose from and delivers a fine report,** complete with criteria, after completing the job. It will **search most archive types,** including ARC, ARJ, ZIP, ZOO, LBR, LZH, PAK, and PKA, but don't expect speed here. Wolly gave it the three finger salute the first time he ran it and didn't realize it searched archives, thinking it had died in action. **WFIND21.ZIP** (59K) lets you s**pecify drives, file size ranges, dates, and allows printing or clipboard copying of the results.** Registration is **$10.00.** Wolly finds that just right.

OMNIDAY
Dear Diary:
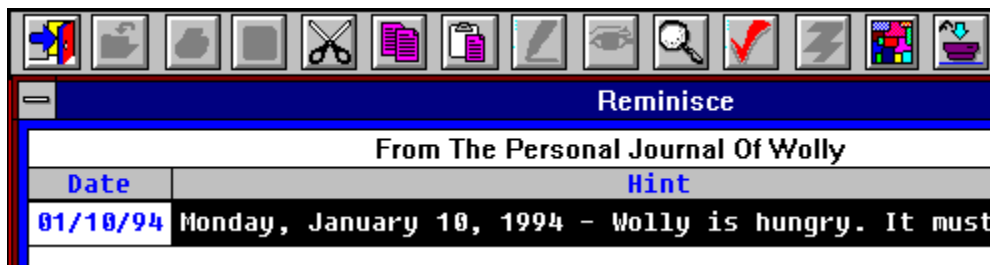

If you'd like to **document your life and daily adventures** electronically, take a look at OmniDay. A full line-up of **icons makes entry and searches for your bits of wisdom easy.** The program will **handle up to ten users,** who can protect their entries with a **passcode and even encrypt** their data if they so desire. The Reminisce feature allows easy **browsing of daily entries,** and an interface to an external spell checker or thesaurus is provided. All in all, **ODAYW201.ZIP** (382K) is pretty well done and can be registered for **$29.95.**

MEDIEVAL WAR
War *is* medieval, isn't it?

Mass your troops! **Build a light infantry or galleon piece to capture your opponents' cities!** Medieval War is a **multi-player game of strategy** that takes you through squares representing sea, land, mountains, forests, and cities. If you like this kind of game, **MEDWAR10.ZIP** (197K) seems like a good example of the genre. Registration is **$29.95.**

WIN WAGES
Or in this economy, lose wages

Changing jobs? WinWages is a **simple calculation program that will spread wages** into categories easily understood. **Specify the wage range, time period and increment,** and **WWAGES10.ZIP** (66K) breaks it down into digestible pieces. Sure, it's nothing you couldn't do with your spreadsheet program, but **it is quick, convenient,** and registers for **$5 to $8.**

TIME AND MONEY TRACKER
Time *is* money!
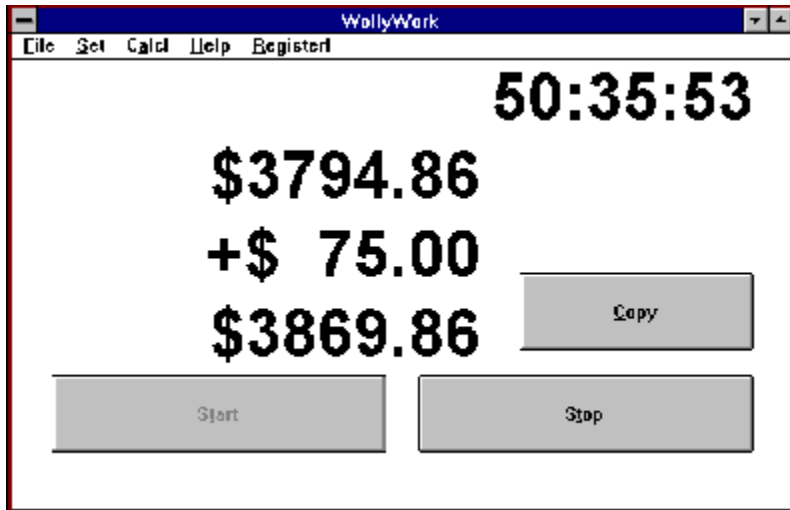

Keep **records and price your time, by project,** with the Time and Money Tracker. Each project can have its own **fixed cost and hourly rate.** TMT201.ZIP (52K) is simple and straightforward, far too simple for its registration fee of **$25.00** personal use or $45.00 business use.

written by

as told to Bob Gollihur
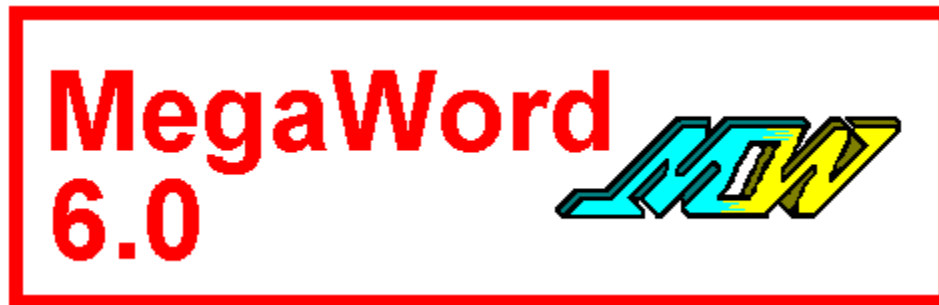

For those of you who have already purchased the new **Word for Windows 6.0** you are well aware of the awesome power of this new program. Microsoft certainly did quite a job crafting this word processor. However, as is so often the case with commercial software programs, someone takes a very good program and makes it much better. In this case the someone is Romke Soldaat and the program is *MegaWord 6.0*.

From a comprehensive and well written 70+ page manual to over 30 tools and utilities to significantly enhance the already powerful features of **Word for Windows 6.0**, the *MegaWord* program has virtually something for everyone. This is truly a worthy successor to the earlier MegaWord 2 program. The primary problem in writing a review for a program that offers as much as *MegaWord* , is trying to figure out where to start. So, rather than getting off on the wrong track, we can start with the basic requirements. If you're planning on giving this program a try, in addition to the **Word for Windows 6.0** program, you'll need **Windows 3.1** or higher, and **DOS 6.0/6.2** if you want to access some of the program features.

The first feature I really think is well thought out is the optional install routines. Here you have three choices of how *MegaWord* is installed. You can have the program load as a permanent global template, a temporary global template, or load individual elements to your normal template. Another VERY nice touch is that *MegaWord* does not disable the existing functions within **Word for Windows 6.0**. Each replacement element or tool in *MegaWord* can be overridden by holding down the SHIFT key when you start the macro. So, with this feature, if you want the original **Word for Windows** command instead of the *MegaWord* command, you always have the choice. Just these features alone would win the prestigious *Works For Me!*

award, but there is MUCH more to this program.

Document and Template Tools

The program comes with a variety of tools and macros to replace some of the more cumbersome File commands. These include:

◆ *Template Manager.* Replaces the File New command and shows templates and wizard names and descriptions.

◆ *Document Recall.* Lists the files you've worked on and allows you to both preview and reload them easily.

◆ *Project Manager*. Group related documents under a Project Name. One mouse click will reload the entire project.

◆ *Fast Open.* Preview and open documents.

◆ *Fast Path*. Complete directory management from within **Word for Windows.** Create, remove, flush and rename directories, or delete entire directory trees.

◆ *MultiFile.* Complete file management from within **Word for Windows.** Copy, move, delete, preview, open or print files or groups of files anywhere on your system.
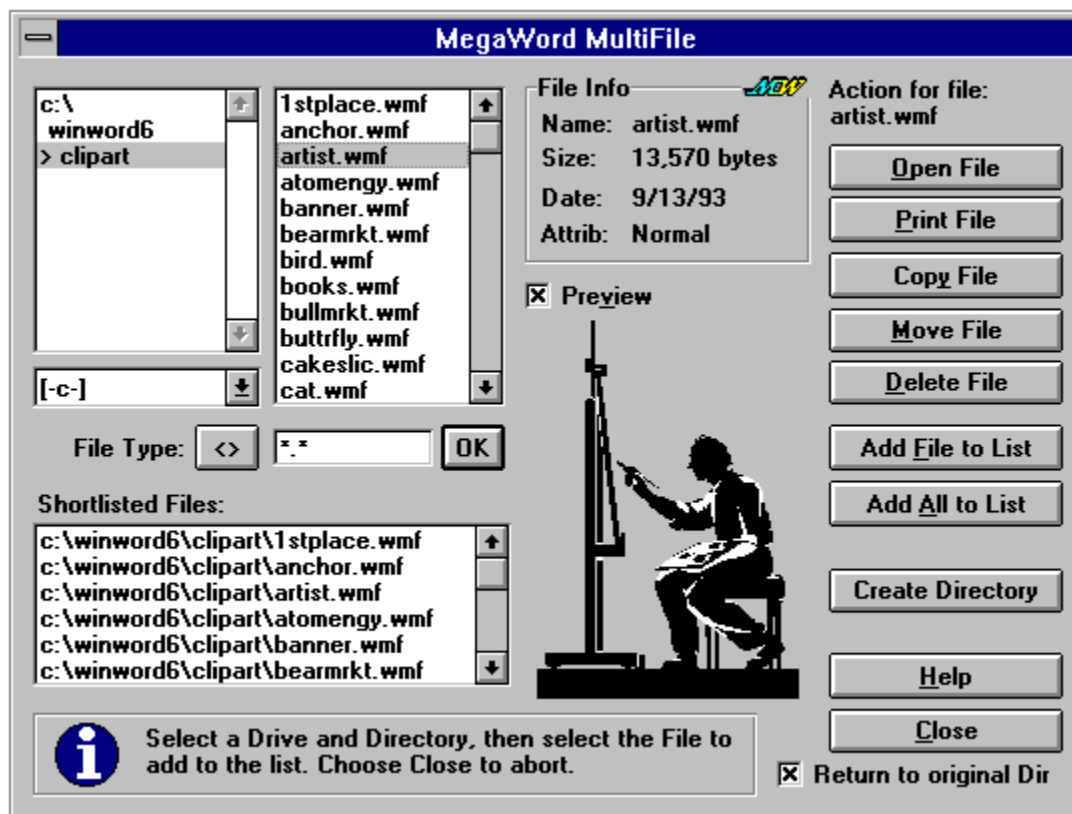

MultiPrint. Complete control for printing, faxing, and setting your printer drivers. Runs Print Manager and the Control Panel as well, all from the same dialog box.

Viewing Tools

The program also has several tools to customize your workspace and to make using Word for Windows 6.0 more sensible. These tools include:

View Manager. Define your favorite workspace view and give each view a unique name. Then recreate whenever you want with a single mouse click.

Window Manager. Close or arrange document windows quickly.

True Name. Puts full path name, document title/description, or file name in the title bar.

Toolbar Picker. A fast and convenient tool for adding or changing toolbar icons. Cut and paste any of the 312 button images with two mouse clicks.

QuickZoomUp, **_QuickZoomDown_** and **_QuickSplit._** Hotkey keyboard interface to the Word Zoom commands.

Editing and Formatting Tools

The program has a few tools to make creating and using special characters easier. These tools include:

Special Characters. Pick foreign or non-alphabetical characters from a mini toolbar.

Compose Character. Create special characters quickly and easily.

Table 3D Effects. Adds 3D effects to entire tables or to selected table cells.

Table Toolbar. An all-in-one table formatting toolbar.

Date and Information Tools

The program also has tools to allow you manipulate date, time and numbers. These include:

Date and Time. Inserts any date in more than 30 formats and in over than 20 languages.

Date Calculator. Shows everything you want to know about any date in the past and future.

Calendar. Displays the calendar of any month/year combination, and inserts the calendar in your document in any font and size, and in the language you wish.

Character Analyzer. Scans selected text and tells you exactly whats there.

Word Count. Counts the words in your entire document, page, section, paragraph, sentence, line, table, selected area, and more. Also reports on the readability of your selection.

Insert Number. Insert any number in any format. And this is probably the only **Word for Windows** calculator that speaks 21 languages!

System Tools

The program also has a collection of tools to replace Program Manager and the Control Panel. Manage your **Windows** system, from within **Word for Windows**. These tools include:

Application Manager. Start any Program Manager application. Turns your favorite Program Manager group into a point-and-shoot Button Bar or Launch Menu, with no programming.

Main Applications Toolbar and Control Panel Toolbar. Immediate access to your most-used Windows applications and system settings.

System Monitor. Keeps you continuously up-to-date

with your System Resources and gives immediate access to comprehensive system information.

———————————— *Lock Windows*. Blank your screen and optionally password-protect your system.

———————————— *System Exit*. Quit **Word for Windows** or **Windows**, or reboot your computer and restart **Windows**.

Entertainment Tools

For those times when you don't really feel like working, *MegaWord* even has a bit of fun built-in. These features include:

———————————— *BioRhythm*. Checks your physical, emotional, and intellectual state. And reveals the compatibility between you and your partner.

———————————— *CD Player*. Control your CD-ROM player from a **Word for Windows** toolbar and enjoy your music CDs while you work.

So, if you have **Word for Windows 6.0,** the *MegaWord* program is an addition you should seriously consider adding as well. I'm not sure, but I'll bet you'll see some of these features from Microsoft when they redo **Word for Windows** again. Members of Windows OnLine can find a full description of the *MegaWord* program as MWORD6.ZIP or the full *MegaWord* program as MWORD6.EXE in Directory #500 - (WINDOWS-New Uploads).

MegaWord 6.0
Registration fee: $54.00
A $20.00 discount is available for those using selected **Word for Windows** add-on products. Check the program for details.

NEW WINDOWS FILES

The following file listings became available on Windows OnLine two weeks prior to the issue date, and may not yet be available on some bulletin board systems. Many more files were added to our library during that time, but only files of recent date are listed here. Members of Windows OnLine can download WOLRECNT.ZIP or use our mail door to obtain a complete listing.

WINDOWS - NEW UPLOADS from January 2, 1994 through January 8, 1994

(older files omitted; graphics and sound files edited to limit list size)

PRGGRP14.ZIP 8803 01-06-94 ProgmanGroups V1.4 (c) 1993 by Andreas Furrer Progman-

Groups gives you the possibility to have **groups in groups in the progam manager** of Windows without any limitations. Handy! (Last Revised: 09/09/93)

QW3R6.ZIP 259263 01-02-94 **Quicken 3.0 for Windows Release 6 patch/ update:** Brings any release of Quicken 3.0 for Windows up to rel 6. From new CIS Quicken support forum (GO INTUIT). No update notes. (Last Revised: 12/24/93)

QW3R7.ZIP 722478 01-03-94 **Quicken** for Windows v3.0 release 7 upgrade patch and patcher. (Last Revised: 12/29/93)

QWTIPS01.ZIP 14500 01-03-94 Miscellaneous text files from CIS **Quicken support forum** re: Quicken for Windows: Tips, troubleshooting, amazing misinformation (no, there is not an extra charge for mutual fund quotes in CIS basic services), etc. (Last Revised: 12/25/93)

SABDU250.ZIP 309120 01-04-94 SAB **Diskette Utility** Version 2.40 (ASP) THE MS Windows Diskette Utility Format/copy/compare/save floppy diskette images in foreground or background. Read a diskette once and make multiple copies. Save images to hard drive. Convert diskette image formats while preserving boot and reserve sectors. Create distribution sets with group restores. Browse diskettes and saved diskette images. Shareware from SAB. (Last Revised: 01/01/94)

SAMDU250.ZIP 76216 01-04-94 This is the sample program for using the SABDU001.DLL that comes with SAB Diskette Utility. SAB Diskette Utility must be obtained seperately. It can be found on many BBS's under the name SABDUxxx.ZIP where xxx is the version number. It can also be found on CompuServe under the name SDUxxx.ZIP where xxx is the version number. Sometimes it can be found under the name SABDU.ZIP. This is for v.2.50. (Last Revised: 01/01/94)

TMT201.ZIP 52157 01-07-94* Time and Money Tracker is a Windows program which will **track the time spent for a project and calculate the cost** based on an hourly rate. It will also add fixed costs when the timer is started. The program will track time even when the computer is shut off. This program is great for consultants who need to track their time for clients. This program won 3rd place in the Microsoft Windows NT Shareware Contest in the Business category. (Last Revised: 12/22/93)

WBANK23.ZIP 149078 01-04-94 BankExpert for Windows (ver 2.3) - home accounting program. Maintains bank account, prints checks, budgets expenses. (Last Revised: 01/01/94) Wolly sez this check bounces in WOLRS36, or at least that version did. Could this be better? It *has* to be. <W>

WBNCH402.ZIP 608548 01-03-94 PC Magazine's **WINBENCH** v4.0 for 486 PCs (Last Revised: 11/04/93)

WBRDG325.ZIP 357053 01-03-94 Bridge for Windows v3.25: MS-Windows **bridge game** that deals four random hands of Bridge, selects the best hand to be yours and the 2nd best for North; follows the generally accepted practice of the weak two-bid structure; will assist you in practicing your bidding; save/recall hands; can setup a bridge hand directly; requires VBRUN300.DLL. (Last Revised: 12/19/93)

WDAT33.ZIP 49772 01-05-94 WingDate v3.3 provides a quick visual reminder of upcoming important events with the current date highlighted. Dates and Events can easily be Added, Updated and Deleted. (Newest File Date: 12-16-93) See Wolly's winging in WOLRS34

<W>

WDIFF111.ZIP 76577 01-06-94 WDiff v1.11 <ASP> - Win File/Dir/ZIP Diff Side by side **display of two text files, directories or ZIP archives.** Useful for programmers to see the differences between two source text files or two sets of files, where one or both sets can reside in a ZIP archive. Various configuration options. DOS command line version (DIFF) also available. (Last Revised: 12/30/93)

WFIND21.ZIP 55974 01-06-94 FILE FINDER VERSION 2.1 FOR WINDOWS <ASP> Powerful **file search** program for Windows- File finder for Windows is a file search program for Windows 3.x. Complete, well-done. Files: 8 09-15-93...12-25-93 (Last Revised: 12/25/93)

WGNHLPU.ZIP 414973 01-03-94 Windows **Genealogy Help** Update Issue #1. Adds better and more descriptive help to many of the help topics. Update Issue #2 soon to come. File 1 of 1. New:12-05-1993 Old:01-01-1994

CHEMFONT font/macro; Wolly's good mood   New:01-06-1994 Old:01-05-1994

WWAGES10.ZIP 66454 01-02-94 WinWages v1.0 will **calculate Hourly, Weekly, Monthly, or Yearly wages.** It is useful when doing "what if" analysis or budgeting. An excellent program idea with so many people searching for jobs. Values reported are approximate. Written by William L. Gerrard and released as shareware by Digital Daze Software. REQUIRES MS Windows 3.1 or greater New:08-16-1993 Old:01-01-1994

XMASFUN9.ZIP 492959 01-04-94 MERRY CHRISTMAS! WAV of JINGLE BELLS
BATMAN SMELLS, ROBIN laid an egg. (Last Revised: 12/25/93) Sounds like Bart is at
it again! Wolly deleted lots of WAV and MIDI files from the new files list to keep it
small. Check out WOL for a large selection of both. <W>

Notice:

Windows OnLine (BBS) makes every effort to identify and to post only shareware, freeware, demos, working models and drivers (software files and programs) for it's membership which are intended for free public distribution. Due to the lack of documentation and other descriptive files contained within certain archives, it can be quite difficult to identify and remove improper and otherwise copyrighted files and programs from our file listings.

It is the policy of Windows OnLine (BBS) not to allow such improper and illegal files and programs on the BBS, at any time. Our Readers and Members are asked to cooperate with us in our efforts to identify such improper files and to assist WOL in its efforts to remove ANY inadvertent inappropriate file postings.

Thank You.

NEW OS/2 FILES

The following file listings became available on Windows OnLine two weeks prior to the issue date, and may not yet be available on some bulletin board systems. Many more files were added to our library during that time, but only files of recent date are listed here. Members of Windows OnLine can download WOLRECNT.ZIP or use our mail door to obtain a complete listing.

OS/2 - NEW UPLOADS from January 2, 1994 through January 8, 1994

(older files omitted; graphics and sound files edited to limit list size)

NOTE: DOS, OS2 and Windows newly uploaded files are located in Directories 148;149;150.

The following directory contains all new DOS files to WOL

148. DOS - NEW UPLOADS		**624**
83,788,485		

Totals For All DOS Files		**20,185**
2,296,098,105		

Grand Totals		**32,154**
3,734,862,765		

This listing is as of September 1993 and is presented as an example of the tremendous number of WOL directories and files available to members. Remember, these are clean file listings, purged of useless duplicates or obsolete files. Windows OnLine™ works hard to gather the best and latest for its members!

Windows OnLine™ brings
THE BEST AND LATEST FILES.
26,000 Windows - 3,600 OS/2 - 35,000 DOS FILES ONLINE
NO JUNK - we obtain the files ourselves, screen them thoroughly and edit their descriptions.
THE LATEST FILES and **MORE FILES** - we get them EVERY DAY!
MINIMAL DUPES - we clear off the old when we bring on the new.

WOLRS Review Index

Issues 1 through 35

This index is presented in order of program topic. If you want to search for a specific shareware program, you may do so by selecting EDIT and COPY, and then copying the listing to clipboard and pasting it into Notepad. Use the program's search feature to find the program in which you're interested.

**Wolly uses the following system
to evaluate programs auditioned
for the Shareware Briefs:**

Siemens UM 486-33DX
16 megs RAM, 256K cache
17" .25 Sony CPD-1730 Monitor
Diamond Stealth 24, (S3, 1 meg)
2 IDE Drives 245, 210 megs
Colorado 250 meg Tape Backup
Soundblaster 16
Panasonic CD ROM 150kb, 390ms

**A second system is also used as
an additional test platform:**

386-25DX
4 megs RAM
14" .31 VGA
Generic 256K VGA
1 ESDI Drive w/Stacker 3.1

Would You Like Your Program *Featured* or included in the Shareware Briefs??

Each week *Wolly* looks at the newer programs that have been posted on **Windows OnLine™**. *Your* program could be included.

UPLOAD your creation to **Windows OnLine™** *immediately* upon availability. Call **510-736-8343**

You may leave a (C)omment to the Sysop; a menu will allow you to designate the recipient. If you would like, you may send pertinent supplementary material such as press releases, registered copies and other information to:

> **Bob Gollihur, Editor**
> **WinOnLine Review™ Shareware Edition**
> **Seven Baywyn Drive, Ocean View, NJ   08230-1060**

> (609) 624-1470   -   CIS 71334,2065 *(do not send files through CIS)*

Mail early to be certain it will arrive during the same week you upload your program to Windows OnLine™.

Please be advised that submission is no guarantee of appearance or a favorable review from Wolly in the Shareware Briefs. However, all current Windows shareware newly uploaded to WIndows OnLine will appear in the New Files column.

FREE ———————— PC-SIG *"World of Windows"* CD ROM

350 top shareware programs - 900 truetype fonts - 429 atm fonts
2,000+ sound files - 10,000+ icons - WinOnLine Review™ & the Shareware Edition

FREE with your **GOLD MEMBERSHIP** to **Windows OnLine**™
