HOUSE - To Do List -

*Please do **your** part...support shareware! **HOUSE** took years to create and thousands of hours of work were involved designing and producing the final product. You really should purchase a copy if you use it! The future awaits too...better & faster versions of **HOUSE**...but not until somebody orders a copy! <u>YOU!</u>   By supporting the authors of the shareware you use-- you will help bring commercial prices down. If you don't...authors will starve...and you will pay hundred's of dollars for software that should only cost half as much. Why not send that check today?*

See HOUSEBUY.WRI for an order form, or choose "ORDER FORM" from your HOUSE menu!
