DRIVES LIST

Select which drive to make active by clicking on the down arrow symbol and selecting the appropriate drive.   If you select a floppy drive, insert the disk that contains .ICO icon files before making your selection.   As soon as the drive is changed, any icons are read from the current directory and displayed.   The DIRECTORIES LIST is used to change the directory.

DIRECTORIES LIST

Select a directory that contains .ICO icon files.   To open or close a directory branch, simply double click on the appropriate directory.   After double clicking on a   directory that contains .ICO icon files, the icons are automatically displayed.   The <u>DRIVES LIST</u> is used to change the drive.

ICON DISPLAY AREA

The icons in the selected directory that match the current ICON FILTER are displayed in the large boxed area.   If there are more icons in the selected directory than can be displayed, you can use the scroll bar to view more icons.   The icons can be DRAGGED AND DROPPED to the copy, rename, and delete buttons.

ICON FILTER

If you want to limit the icons that are displayed and printed, you can type in the first letter(s) of the icons to display and print in the filter field.   For example, a filter of "123" would show all icons that started with a file name of "123".   Whenever you change the filter, you need to press the RELOAD ICONS BUTTON so the change can take effect.

RELOAD ICONS BUTTON

Press this button to reload all of the icons in the selected directory.   This is particularly useful when working with floppy disks and changing the <u>ICON FILTER</u>.

SHOW ICON FILE NAMES CHECK BOX

If checked, the file name of each icon will be displayed under the icon itself.   Simply click on this check box to toggle it on and off.

SORT ICONS CHECK BOX

If checked, the icons will be sorted in alphabetical order by the names of the icon files. Simply click on this check box to toggle it on and off.

ICONS IN DIRECTORY

The number of icons in the selected directory is shown here that match the current ICON FILTER.

ICON FILE NAME

The file name of the icon last under the mouse pointer is displayed here.   This is useful when you want to know the file name of an icon and the SHOW ICON FILE NAMES CHECK BOX is unchecked.

DELETE BUTTON

Gives you the option of deleting the icon that was DRAGGED AND DROPPED on the delete button.   The DELETE ICON DIALOG BOX will be displayed after dropping an icon on this button.

DELETE ICON DIALOG BOX

Press the YES button to delete the icon that is shown, otherwise press the NO button to abort the icon deletion.

COPY BUTTON

Gives you the option of copying the icon that was <u>DRAGGED AND DROPPED</u> on the copy button.   The <u>COPY ICON DIALOG BOX</u> will be displayed after dropping an icon on this button.

COPY ICON DIALOG BOX

After the name, drive, and directory for the copied icon are set, press the OK button to copy the icon that is displayed. Pressing the CANCEL button will abort the icon copy.   The destination drive, directory, and file name is displayed above the OK and CANCEL buttons in an easy to read format.

Name

Enter the file name of the new icon.   Please note that the default name is the same as the original icon, so it will be necessary to change the file name unless the drive or directory is changed.

Drive

If you want to copy the icon to a different drive, simply click on the down arrow symbol and select the appropriate drive.

Directory

If you want to copy the icon to a different directory, simply double click on the appropriate directory.

Icon

The icon that will be copied if the OK button is pressed is displayed here.

RENAME BUTTON

Gives you the option of renaming the icon that was <u>DRAGGED AND DROPPED</u> on the rename button.   The <u>RENAME ICON DIALOG BOX</u> will be displayed after dropping an icon on this button.

RENAME ICON DIALOG BOX

After the name, drive, and directory for the renamed icon are set, press the OK button to rename the icon that is displayed. Pressing the CANCEL button will abort the rename.   The destination drive, directory, and file name is displayed above the OK and CANCEL buttons in an easy to read format.

Name

Enter the new file name of the icon.   Please note that the default name is the same as the original icon, so it will be necessary to change the file name unless the drive or directory is changed.

Drive

If you want to rename the icon to a different drive, simply click on the down arrow symbol and select the appropriate drive.

Directory

If you want to rename the icon to a different directory, simply double click on the appropriate directory.

Icon

The icon that will be renamed if the OK button is pressed is displayed here.

EXIT BUTTON

Exits VB Icon Browser and frees up resources used by the program.

INFO BUTTON

Displays the <u>INFO DIALOG BOX</u> that contains copyright information and information about other Valley Programming products that are available.

INFO DIALOG BOX

Displays copyright information and information about other Valley Programming products that are available. You can order a registered copy of VB Icon Browser and order other Valley Programming software by <u>CREDIT CARD</u> using a 1-800 number, using CompuServe's <u>GO SWREG</u> service, and mail using the <u>ORDER FORM BUTTON</u>.   Press the EXIT button to exit this dialog box.

PRINT ICONS BUTTON

Displays the PRINT ICONS DIALOG BOX for making a printout of the icons that are in the current directory and match the ICON FILTER.

PRINT ICONS DIALOG BOX

To make a printout of the icons that are in the current directory and match the ICON FILTER, press the OK button.   If you like, you can change one or   more of the printing options that are listed below.   Pressing   the CANCEL button will abort the icon printout.

PRINTOUT TITLE

PRINTOUT SUBTITLE

PRINTOUT ICON NAME
