Michael Sound and Music Player
By Michael Chan Ho Ming
MicPlay Version 1.0

Overview
MicPlay Version 1.0 has the following features:
1) MicPlay can play .MID and .WAV files through different sound card in MS Windows 3.1. It depends on which sound driver you have installed.
2) MicPlay can list all .MID and .WAV files in a selected directory <u>simutaneously.</u>
3) MicPlay can read and write the 4DOS or NDOS <u>description file</u> and display the sound files' descriptions.
4) If you want to delete a file, you simply have to <u>drag</u> the file over the trashcan. That's it! You can set option for confirming deletion of file.
5) You can play one of your favourite .MID music files <u>repeatly</u> just by one single click without pressing the PLAY button in MPLAYER every 2 mins 31 secs.
6) <u>User friendly</u> and <u>fancy</u> graphical user interface.
