

Two Macros for Microsoft Word 6.0x to:

- 1) Get the clock and/or Calendar quickly and easily
- 2) Install and Remove Drivers, Fonts, Sounds, or to modify any other controls from control panel quickly, easily, and efficiently. It also SHELLS TO DOS!!

These Macros are Copyright 1993, by Andrew M. Freeman. If you continue to use them for more than 14 days (that is 14 business days), you MUST register them. I will write you a letter showing you how to eliminate the rare, but annoying messages I have built in to the macros. The \$5 is the only registration fee required for TWO macros- VERY CHEAP!

[Please help me finance my future college funds! Thank you.](#)

Directions: Choose Copy A Macro from the toolbar above. This should copy the macros to your Normal.dot or other template. To use the macros, choose Macro from the Tools menu, select the macro and hit run. The macros are named: CalenaderandClock, and InstallFontsDriversandSounds. If you want, and it is recommended, you may add these macros with a button of your choice to your toolbar. (A simple install button is located at the top of the screen for toolbar installation- however, if you know how, do toolbar modifications yourself for best looks) If you want you may just add them to a menu. The options are yours. Please consult your User's Guide for more information. Thank you, and I hope you enjoy using these macros.
