I've ordered online but didn't receive a Key Code.

If you chose the "Email" option when placing your order, please allow up to 24 hours to receive your Personal Registration Code.

Occasionally an error is made when typing in an email address in which case we are unable to send the Registration Code successfully. Also, some users have blocks set on incoming mail to reduce spam which can cause our emails to bounce back. If you think either of these may be the case, please contact us at info@dreamscenes.net.

If you chose to "Download", you can then download the **software version** of the screensaver which does not have a nagbox and gives full access to all Options. There is no Key Code involved. After submitting your credit card information, you can download the full **software version**.

Find the directory where you downloaded the file and run it to install the software version of Dolphin Dreams. It will now appear in your Screensaver section of Control Panel as **Dolphin Dreams Software**.
