

Wallpaper Factory

Package #1

Welcome

Welcome to the world of Windows wallpaper! We hope that you find this package both enjoyable and useful. The included bitmap files are designed to be used with the Microsoft Windows system as desktop wallpapers. Each uses a 16 color palette, appears best tiled, and can be used at any resolution unless otherwise noted.

Please feel free to view the included wallpapers and pass along to friends. If you decide to use any or all of the bitmaps, please register this copy (see below). If you pass this on, please maintain the integrity of the package by including all bitmaps and documentation.

Contents

To Register

If you decide to register, you will receive a license to use any or all of the package #1 bitmaps as Windows wallpapers for use on a single computer or terminal. In addition, you will be added to the mailing list for other wallpaper packages and future updates, of which you may purchase at a reduced price. If you decide to not register, please discontinue use, and either pass along the full package, or destroy it.

Please address requests for site licenses to the address below. Please include the number of licenses required, and other necessary information.

Please note that all material included with this package is protected under U.S. copyright law, and that a temporary viewing-only license is extended with this document. No portion, in whole or in part, may be reproduced or used for purposes other than those explicitly noted in this document.
