Song: The Hitter
Band: Dover
Album: Late at night

C#m   **G#**   **A**   **E B**
I was just a hitter on the top of the mountain no one told me the truth
they lift you to the top and then they kick you to bottom you know how bad it feels

G#   **C#m**
Hey! this is who I am
G#   **E B**
don't forget about your rage

C#m   A   G#   **E   B**
Oooooh -- that was illegal and nobody cares   *x2*

C#m   G#   A   E B   x2

I just had the beater but the beater would leave me no one told her the truth
they lift you to the top and they they kick you to bottom you know how bad it feels

Hey! this is who I am
don't forget about your rage

Ooooh -- that was illegal and nobody cares   *x2*

C#m   G#   A   E B   (2 times slow, 2 times sustained by solo)

I was just a hitter on the top of the mountain no one told me the truth
they lift you to the top and then they kick you to bottom you know how bad it feels

Hey! this is who I am
don't forget about your rage

Ooooh -- that was illegal and nobody cares   *x2*

C#m   G#   A   E B x2
