### Trial Use License

Jewel Thief is NOT a public domain program. It is Copyright (c) 1991-1993 by ServantWare. All rights reserved.

ServantWare hereby grants you a limited license to use this software for evaluation purposes for a period not to exceed thirty (30) days. If you intend to continue using this software (and/or it's documentation) after the thirty (30) day evaluation period, you MUST make a registration payment to ServantWare. Using this software after the thirty (30) day evaluation period, without registering the software is a violation of the terms of this limited license.

This software and accompanying documentation are protected by United States Copyright law and also by International Treaty provisions. Any use of this software in violation of Copyright law or the terms of this limited license will be prosecuted.

## Author Information

ServantWare is a software company owned and operated by Paul Ligeski. At ServantWare we strive to uphold the character quality that is part of our name: service. This concept is fundamental to our approach to product development, production and marketing.

Please feel free to contact me (Paul Ligeski) at any time if you have any questions, comments or suggestions. I can be reached at:

## Ombudsman Statement

This program is produced by ServantWare, a member of the Association of Shareware Professionals (ASP). ASP wants to make sure that the shareware principle works for you. If you are unable to resolve a shareware-related problem with an ASP member by contacting the member directly, ASP may be able to help. The ASP Ombudsman can help you resolve a dispute or problem with an ASP member, but does not provide technical support for members' products. Please write to the ASP Ombudsman at 545 Grover Road, Muskegon, MI 49442-9427 or send a CompuServe message via CompuServe Mail to ASP Ombudsman 70007,3536.

## Shareware

Jewel Thief is a 'shareware' program. What does that mean? In short, Jewel Thief is a copyrighted program which you may try and share with others but after thirty days you must register Jewel Thief.

You've probably heard the terms "public domain", "freeware", "shareware", and others like them. "Public domain" (or "freeware") has a very specific legal meaning. It means that the creator of a work (in this case, software), who had legal ownership of that work, has given up ownership and dedicated the work "to the public domain". "Shareware" is copyrighted software which is distributed by authors through bulletin boards, on-line services, disk vendors, and copies passed among friends. It is commercial software which you are allowed to use and evaluate before paying for it. This makes shareware the ultimate in money back guarantees.

With shareware you get to use the product for a limited time, without spending a penny. You are able to use the software on your own system(s), in your own special work environment, with no sales people looking over your shoulder. If you decide not to continue using it, you throw it away and forget all about it. No paperwork, phone calls, or correspondence to waste your valuable time. If you do continue using it, then - and only then - do you pay for it.

The shareware system and the continued availability of quality shareware products depend on your willingness to register and pay for the shareware you use. It's the registration fees you pay

which allow us to support and continue to develop our products.

Please show your support for shareware by registering those programs you actually use and by passing them on to others.

Shareware is kept alive by YOUR support!
