### 1.2 Contents of this CD

This CD contains all the material you need to start developing software for Amiga computers. This includes:

- The CD's developer package. In addition to the original five disk set distribution you will find the "BuildCD" CD writer package

- Packages contributed by 3rd parties:
  - The WBPath and ActionFSSM packages, courtesy of Ralph Babel
  - The Envoy v2.0 developer kit, courtesy of IAM, Inc.
  - The INet 225 developer kit, version 2, courtesy of Interworks, Inc.
  - The Kiskometer package, courtesy of Angela Schmidt
  - The Enforcer v37.64, courtesy of Mike Sinz
- Information in support of forthcoming operating system developments
- Additional developer material:
  - BOOPSI gadget and image classes
  - The AmigaOS 2.04 example code, as part of the original 2.04 Native Developer Kit
  - The RKM 2.04 code examples
  - The complete set of registered IFF forms
  - IFF example and stress test files
  - All IFF packages released by Commodore-Amiga, Inc., covering 1986 through 1992
  - The camd v37.1 MIDI developer kit
  - The SANA-II standard package and developer kit
  - The Installer v43.1 package
- International support material:
  - Sample text using the full ISO-8859-1 character set
  - Translation guidelines
- The updated 3.1 Native Developer Kit:
  - 'C' and assembly language header files, linker and runtime libraries
  - System documentation and tutorial texts
  - Example code covering the AmigaOS 3.0 and 3.1 features
  - The NewIFF v39 package
  - The AmigaGuide and DataTypes documentation and example code
- Reference material:
  - The collection of AmigaGuide Volume 1 articles, covering Spring 1987 through January/February 1989
  - The complete AmigaGuide Volume 2 articles in AmigaGuide format, covering January/February 1990 through March/April 1993; also included are the printable issues in PostScript and PageStream format
  - Hardware related articles
  - The Includes & Autodocs in AmigaGuide format.

Please note that you will still need a 'C' compiler or assembler, etc. to develop software for Amiga computers, none of which is included on this CD.

---

## 1.4 Contact addresses

Our postal address:

Amiga Technologies GmbH  
 Berliner Ring 89  
 64625 Bensheim  
 Federal Republic of Germany

Our Web address:

[www.amiga.de](http://www.amiga.de)

To apply for the Amiga Developer Support program write to:

[info@adsp.amiga.de](mailto:info@adsp.amiga.de)

If you have any questions or comments on this CD write to:

olsen@amiga.de

Criticism, bug reports and advice how to make the next CD better than this one are always welcome!

## 1.5 Notes on the CD contents

The contents of this CD were prepared for reading with the `↔`  
`MultiView`  
utility, which is part of Workbench 3.0 and 3.1. If you plan to read the CD under older Workbench and AmigaGuide releases, you may experience difficulties.

Most electronic mail and postal addresses mentioned in the documents found on this CD are outdated. `cbmvax` went offline long ago, the `commodore.com` domain is no longer operational, the Commodore-Amiga Technical Support (CATS) group no longer exists and Commodore-Amiga, Inc. and its former subsidiaries went out of business. If you direct your inquiries to any of these outdated addresses you cannot expect to get any answer back. Use the addresses given  
here  
to make  
contact to Amiga Technologies GmbH instead.

## 1.6 Liner notes

The contents of this CD were edited and compiled by Olaf Barthel from original material found in the Commodore-Amiga Technical Support (CATS) archives and the 1992 "CATS Developer CD v2.0". It incorporates technical notes and tools updated by Heinz Wrobel, Jim Cooper and Mike Sinz and additional material contributed by Ralph Babel, IAM, Inc., Interworks, Inc. and Angela Schmidt.

I wish to thank Michael-Wolfgang Hohmann at Amiga Technologies GmbH and Stefan Ossowski at Schatztruhe GmbH for getting the ball rolling, Andy Finkel for helping me find the way through the tape contents and for filling in the missing pieces and last but not least to Ralph Babel, Jim Cooper, Dale L. Larson, Angela Schmidt, Mike Sinz and Michael B. Smith for their contributions. Thank you very much!

Other than you might have expected this CD does not carry the Amiga ROM Kernel Reference manuals, 3rd edition, in AmigaGuide format as found on the "CATS Developer CD v2.0". Legal clearance for publication in this form ist still pending. The manuals may follow on a future version of this CD or possibly on a registered developer-only version of it.

The placement of the icons on this CD was chosen by an automatic layout process with `topaz/11` as the icon font.
